Welcome!

The nursing faculty of Casper College extends a warm welcome to you. We hope that your coming years at Casper College will be meaningful. We want to assist you in every way in attaining your goal of becoming a professional registered nurse.

The information contained in this handbook is meant to supplement the Casper College Catalog and the Casper College student handbook. The current handbook will be available on-line. Please refer to the current handbook as needed. Any revisions to the handbook will typically be made at the end of the semester unless immediate notification or implementation is necessary. Students will be notified regarding changes to the Student Handbook via course Moodle Course Shell, e-mail and/or announcements in the General Information for Nursing students (GINS) Moodle shell.

This first section of the handbook addresses the Casper College School of Health Science Admissions Performance Standards, and Policies, and Procedures, which applies to all nursing students.

The second portion is specific to the H.E. Stuckenhoff Department of Nursing and the ReNEW Curriculum.

The student is responsible for reading and understanding and/or seeking clarification of the material in this handbook.

Each student will sign an acknowledgement stating you have read and understand the material contained in this handbook.

Casper College School of Health Science

Admission, Progression, and Core Performance Standards

1. Students may take classes at Casper College as non-degree seeking students, but the faculty recommend that those interested in Health Science programs apply as degree seeking students. This allows the student to take full advantage of formal academic advising.
2. To apply as a degree-seeking student, the applicant must:
 - a. Submit a completed Casper College application for admission to Enrollment Services. Available online: www.caspercollege.edu
 - b. Submit applicable transcripts, immunizations, records and test scores, see the online catalog for specific eligibility requirements.
3. When the above documents are received, and the applicant is admitted, Enrollment Services Office will invite the applicant to advising and registration.
4. For admission and progression in a Casper College Health Science Program, a qualified individual is one who, with or without reasonable accommodation or modification, meets the essential eligibility requirements for participation in the program. All Health Science programs have a competitive selection process, application deadlines and materials, and pre-requisite course work. Please review the department's online information at www.caspercollege.edu.
5. The Health Science fields are practice disciplines with cognitive, sensory, affective, and psychomotor performance requirement. Based on these requirements, a list of "Core Performance Standards" has been developed. These standards are part of program courses, and some of the standards are more prevalent than others. These standards will be used to assist faculty, the Program Director, and the School of Health Science Dean in determining whether a student meets the essential eligibility requirements for admission and progression in the program. These standards should also be used to assist students in determining whether accommodations or modifications are necessary for the student to meet program requirements. Students who identify potential difficulties with meeting the "Core Performance Standards" must communicate their concerns to the Accommodative Services Counselor as well as the Program Director. Determination is made on an individual basis as to whether a student meets the essential eligibility requirements or whether or not the necessary accommodations or modifications can be made reasonably for participation in the Health Science program.
6. For your safety and for the safety of patients, if you have any medical condition that may require accommodations, work with your instructor, the program director, and the office of Disabilities Services to discuss necessary accommodations. Examples of medical conditions that may require accommodations include but are not limited to autoimmune disorders, pregnancy, and acute or chronic health conditions.
7. All admitted Health Sciences students are expected to participate in simulation activities and consent to video recording to optimize instruction and learning. All learning activities associated with simulation are confidential.
8. Readmission into a Casper College Health Science Program or transfer between Casper College Health Science program is at the discretion of the faculty and dean. The faculty and dean will base readmission or transfer decisions on the adopted general Health Science "Core Performance Standards" and specific department criteria.

9. All Health Science students should familiarize themselves with Casper College's Student Handbook and Student Code of conduct found online at www.caspercollege.edu as they are responsible for the content and compliance with the policies and procedures.

Health Science Core Performance Standards – Table 1

ISSUE	STANDARD
Critical thinking	Critical thinking ability to exercise non-clinical and clinical judgment in a timely manner.
Interpersonal	Interpersonal abilities sufficient to interact professionally and therapeutically with peers, faculty, staff, administrators, patients/clients, families and groups from a variety of social, emotional, cultural, and intellectual backgrounds
Communication	Communication skills sufficient for interaction with peers, faculty, staff, administrators, patients/clients, families, and groups in verbal, nonverbal, and written form.
Mobility	Physical abilities sufficient to move from room to room, safely perform treatments/procedures and assist patients/clients; lift and transfer patients/clients; manipulate equipment; walk and/or stand for extended periods of time.
Motor skills	Gross and fine motor skills sufficient to provide safe and effective patient/client care.
Hearing	Auditory ability sufficient to monitor and safely assess health needs.
Visual	Visual ability with or without corrective lenses sufficient for observation and assessment necessary in safe patient/client care.
Tactile	Tactile ability sufficient for physical assessment of patient/client.
Professionalism	The ability to understand and demonstrate sufficient respect for others in non-verbal, verbal, and written communication in the classroom, laboratory, clinical settings. The ability to demonstrate sufficient understanding of the cumulative effect that behavior, appearance, and communication has on the health science professional image.

Casper College's Emergency Response Guide

The Casper College community, including students, should familiarize themselves with CC's [emergency response guide](#) and sign up for text alerts and sign up for text alerts. Students should follow instructions from faculty and building marshals for drills and emergency events.

Title IX

Casper College is an equal opportunity institution and as such, does not discriminate on the basis of race, sex, color, national origin, religion, age, veteran status, political affiliation, disability, sexual orientation, gender, identity, or any other characteristic protected under applicable federal, state, or local law in admission or access to or treatment or employment in its educational programs or activities. Direct inquires or complaints to the Vice Preside for Student Services at 125 College Dr. Casper, WY 82601, 307-268-2210, or michael.peacock@caspercollege.edu, or the U.S. Department of Education, Office for Civil Rights, 12440 Speer Blvd, Ste 310, Denver, CO 80204-3582; 33-844-5695 or TDD 303-844-3417.

Digital Learning Academic Integrity Statement

Casper College demands intellectual honesty in all courses. Only admitted and registered Casper College Students who have been assigned logins and passwords are allowed access to online and hybrid courses. These secure logins verify the identity of the student. Proven plagiarism or any form of academic dishonesty associated with the academic process may result in course failure, dismissal from a program, or expulsion from Casper College, or other consequences. See the Casper College Student Code of Conduct for more information on this topic.

Health Science General Polity Statements and Procedures

School of Health Science Civility Statement

School of Health Civility Statement*

Civility comprises a conscious demonstration of mutual respect – for people, for their roles, for their knowledge and expertise. Civility requires cooperation, tolerance, acceptance, inclusiveness, kindness, courtesy, and patience. It is expressed not only in the verbal and written words we choose, but in our tone, demeanor, and actions. All School of Health Science members are responsible for and expected to exemplify and promote civility. The School of Health Science is committed to creating and maintaining a positive learning and professional, working environment. While it is understood that disagreement will, and should occur in a collegiate setting, open communication, intellectual integrity, mutual respect for differing viewpoints, freedom from unnecessary disruption, and a climate of civility are important values that we embrace.

*Adapted from University Libraries Penn State University.

Clinical Accessibility Policy Statement

Casper College Health Science programs utilize a variety of health care agencies in the community for clinical experience for the students. If you have been employed in one or more of the agencies and are not eligible for rehire as an employee, the agency may not permit you to participate in the essential clinical component of the program.

Please contact the Human Resources department of the affected agency and request documentation from HR that states the agency's position on your participation in the clinical component of the program. If you receive a negative response from the agency, you may automatically be ineligible to apply. A response indicating the applicant will or will not be permitted to attend clinical in the agency will be given to the Program Director prior to admission to the program. If you are unable to fulfill clinical requirements due to a previous employment issue or other issue(s) and have not complied with the above, you could be denied entry in a Health Science Program or be dismissed from a program. Some programs do not have clinical assignments until semester 2, semester 3 or semester 4; students who are denied clinical accessibility at any time prior to or during the program may be dismissed.

Student Driver's License and Automobile Liability Policy Statement

Health Science students are responsible for transportation to activities associated with their program of study. This typically involves the utilization of a reliable, personal vehicle. All admitted Health Science students must provide copies of a valid driver's license and proof of auto insurance card for their personal vehicles. The minimum auto insurance requirements for Wyoming, or the state in which the vehicle is registered must be met. Students must maintain both for the duration of their health science program, and may be asked to present proof at any time during their program of study. To remain in compliance with this policy, students must also notify the program director or faculty should their driving or insurance status change at any time during their participation in a Health Science program. Health Science students, parents, guardians, heirs and estate release Casper College, and any agent thereof, of any and all legal liability which may accrue and understand that Casper College's insurance program will not cover any loss damage or claims incurred as a result of driving their personal vehicles for requirements and activities associated with their program. Health Science students understand and agree that they are entirely responsible for any other person they invited or accepted as a passenger and release Casper College from any and all responsibility and liability for passengers. Health Science students who are unable to present a valid driver's license and proof of auto insurance card must sign an additional waiver provided upon request.

Health Insurance Policy Statement

Students enrolled in any of the health science programs are required to present proof of health insurance and to maintain personal health insurance for the duration of their program. Students may be required to present proof of health insurance at any time during their program of study. If the student does not have access to Health Insurance, please contact the program director.

Social Media Policy Statement

Prohibited Recording Device Use, Social Networking Participation, and Public Disclosures of Care

To ensure compliance with both Federal and State student and patient confidentiality laws, while also maintaining a professional working relationship with our clinical and/or field sites, students are not allowed to utilize photographic, video, audio, or other recording devices (including cell phones) during the course of their instruction or participation in the program unless specifically permitted by instructional staff and affected parties, or as allowed by law. The use of such recording devices is strictly prohibited during all classroom, laboratory, simulation, clinical and/or field experiences.

Students are strictly prohibited from including or posting information pertaining to classroom, laboratory, simulation clinical and/or field experiences on social networking websites or any other type of internet, computer, or technology-based social networking site, electronic bulletin board, blog, wiki, listserv, or any equivalent media outlet.

Public scrutiny, criticism, or disclosure of patient care delivered by clinical and/or field site staff/personnel is strictly prohibited, unless such disclosure is required or protected by law. Such disclosures include those made via social networking sites, as well as other traditional and/or nontraditional means of communication. If a student witnesses care issues at a specific site, such concerns should be directed to faculty.

As representatives of a Casper College School of Health Science program and aspiring member of the medical community, students are held to a high standard of professional conduct, including via social media and/or media related outlets. Students are required to adhere to all professional conduct requirements of the Health Science programs within social media and/or media related outlets including but not limited to social networking sites, blogs, message boards, chat rooms, and any other online forums.

A breach of any of these provisions could lead to an immediate dismissal from the program.

Background Check and Drug Testing Policy Statement

- A. Students enrolled in any of Casper College's health science programs will participate in clinical experiences in a variety of agencies. Prior to participating in the clinical experiences, students will be subject to that agency's requirements for a background check, immunizations, and drug testing and drug abuse prevention policies. Students are then subject to the random drug testing policy of that agency.
- B. Following graduation, several of the state and/or national licensing or certification (registry) boards, may refuse to allow a graduate to sit for the required exam or issue a license or certification to a person who has a prior felony conviction or proven history of drug or alcohol abuse. Applicants to whom this applies should consult the program director for further information.

Chemically Impaired Health Science Student Policy Statement

- A. The faculty of the School of Health Science has a professional and ethical responsibility to the student and clients. The faculty requires that health science students provide safe, effective, and supportive client care. To fulfill this purpose, students must be free of chemical impairment during participation in any part of the health science programs including classroom, laboratory, and clinical settings.
- B. The faculty defines the chemically impaired student as a person who, while in the academic or clinical setting, is under the influence of, or has abused, either separately or in combination: alcohol, over-the-counter medication, illegal drugs, prescribed medications, inhalants, or synthetic designer drugs. Abuse of the substances includes episodic misuse or chronic use that has produced psychological and/or physical symptomatology. This health problem must be proactively addressed when identified within the health science student population. Faculty will follow the college's "Drug Free Campus Policy" as outlined in the Casper College Student Handbook and Annual Campus Security Report. In addition, the health science faculty will intervene with the chemically impaired student as outlined in the established School of Health Science procedure.
- C. The appropriate use of legally prescribed drugs and non-prescription medications is NOT prohibited. It is the student's responsibility to refrain from attending clinical while under the influence of legal prescription or non-prescription medication that adversely affects mental function, motor skills or judgment.
- D. A legally prescribed drug means the individual has a prescription or other written approval from a medical professional for the use of that drug in the course of medical treatment. A confirmed positive drug screen resulting from a prescription medication must be verified. Students shall inquire of the prescribing professional whether the drug prescribed has any side effects which may impair the student's ability to safely perform clinical responsibilities. The misuse of legal drugs while performing clinical responsibilities is prohibited. Students found misusing prescriptions will be referred for a mandatory evaluation and treatment.
- E. The health science faculty is cognizant of the various state board recommendations on chemically impaired students who apply for licensure and will communicate this information to students. Faculty recommends that on application for licensure the student offers full disclosure of chemical dependence and extent of the treatment received.

Procedure for Alleged Chemically Impaired Health Science Student

- 1. Health science faculty or clinical supervisor is to gather and document data on behaviors. If the student demonstrates impaired behaviors in the classroom, campus lab or clinical site the faculty or clinical supervisor will:
 - A. Notify the Program Director of the pending situation. The Program Director will notify Dean and others as appropriate.

- B. Remove the student to a private area and provide the opportunity for the student to explain the observed behavior(s).
 - C. If on campus, notify security (2688) and request a drug/alcohol test, at the student's expense, if determined to be necessary. If patient/client care is involved, relieve the student of the client assignment.
 - D. Students suspected of drug or alcohol use or who display obvious impairment will NOT be permitted to return to class, lab, clinical or fieldwork assignments while awaiting test results, and absence time will accrue. In the event that a student is suspected of illegal drug or alcohol abuse through second hand knowledge, the suspected student may voluntarily submit, at his/her expense, to a drug and/or alcohol test to further clear any suspicion.
 - E. If no obvious impairment is displayed, the student may be allowed to attend lecture or laboratory on campus while awaiting test results at the program director's and/or dean's discretion.
 - F. A student's refusal to submit to drug/alcohol testing will be considered failure to comply with a reasonable request. At that time, the student's actions would be considered noncompliant with the program policies and would be grounds for disciplinary action, and may result in termination from the program.
 - G. The student and Program Director will be notified of results.
 - H. The Program Director will collaborate with the clinical site regarding substance-abuse policies pertaining to student in the clinical setting, if applicable.
 - I. If the drug/alcohol test is negative, a student will be given an opportunity to make-up clinical or fieldwork absence time.
 - J. If the drug/alcohol test is positive, a student will not be allowed make-up time for clinical/fieldwork, and absence time will continue to accrue. Disciplinary action will be taken and may result in termination from the program.
2. An information meeting will be scheduled prior to the results of the drug/alcohol testing, or prior to disciplinary action.
 3. Information Meeting

Involved health science faculty, the clinical supervisor(s), the Program Director, and the student review the documentation of the alleged substance abuse and discuss the procedures that will be followed for procedure implementation.

 1. Make student aware of the faculty's/ supervisor's allegations.
 2. Review the procedure.
 3. Present documentation concerning student's behaviors and provides the student with opportunity to discuss the observations.
 4. Documentation of the student's behaviors, faculty's recommendations for follow-up, the student's written response to the allegations, and the date and time for the intervention meeting will take place at this meeting.
 5. Documentation is dated and signed by the faculty/ supervisor (s), Program Director and the student as soon as possible.
 6. Original is placed in student file and copy is given to student.
 7. If obvious impairment or admission of drug/alcohol use is determined, the information meeting may be bypassed and/or become an intervention meeting. The student will be removed from class, laboratory, and clinical assignments.

8. While waiting for drug/alcohol test results or professional evaluation plan, if no obvious impairment is determined, a student may attend lecture or lab at the Program Director's and/or Dean's discretion.
4. Intervention Meeting
 - A. Involves faculty/ supervisor (s) who identified the problem, appropriate faculty, the student, a student support person, if desired, and the Program Director. The purpose of the meeting is to:
 - Review the student's behavior and classroom/clinical performance.
 - Discuss the policy for impaired health sciences students and its implementation.
 - Discuss the academic consequences related to the policy violation.
 - Secure the student's agreement to seek a comprehensive substance abuse evaluation, and his or her expense, and to release the results to the program director and/or dean.
 - Secure the student's agreement via a FERPA release to allow the Program Director and/or Dean to discuss the student's academics and behaviors with the health care provider whom the student has chosen for the substance abuse evaluation.
 - B. Documentation is completed that articulates the problem behaviors, any academic consequences, the student's agreement to seek a professional evaluation, at his/her expense, for a potential substance abuse problem, and the student's understanding that failure to abide by the recommended treatment plan will result in dismissal from the program.
 - C. The Program Director provides the student with information regarding a professional evaluation, if requested.
 - D. The student may not attend program clinical or fieldwork until a professional substance abuse evaluation and plan are obtained. The plan must align with clinical and fieldwork accessibility policies for the program's sites. If the plan does not align with the clinical and fieldwork accessibility policies, the student may be terminated from the program. A student may attend lecture or laboratory if deemed appropriate by the program director, involved faculty, and/or dean.
 - E. If the student refuses to obtain an evaluation, s/he is dismissed from the program.
 - F. If the student tests positive, the student is dismissed from the program secondary to the student being unable to continue at the clinical site.
 - G. The student, faculty and the Program Director sign documentation of the intervention meeting and it is then placed in the student file with a copy provided to the student.
5. A "Student Grievance Procedure" is available in the Casper College Student Handbook and Datebook if the student believes the allegation(s) regarding chemical impairment and the outcome of the intervention meeting are not justified.

Dean of HS- 5/2018

H.E. Stuckenhoff Department of Nursing

Introduction

The H.E. Stuckenhoff Department of Nursing offers a two-year program accredited by the Accreditation Commission for Education in Nursing (ACEN).

The H.E Stuckenhoff Department of Nursing at Casper College has joined with the other Community College Nursing programs and the University of Wyoming (UW) to develop a common nursing curriculum for the state of Wyoming. The ReNEW (Revolutionizing Nursing Education in Wyoming) curriculum is designed as a baccalaureate curriculum with an Associate Degree benchmark. Under the ReNEW curriculum, persons who enter a nursing program at a community college in Wyoming will be able to complete their ADN (Associate Degree in Nursing), take the national licensure exam (NCLEX-RN) and begin working as a registered nurse. The long-term benefit of the ReNEW curriculum is the ability for ADN graduates to move seamlessly toward their baccalaureate degree through online classes in two additional semesters if the BSN prerequisites have been met.

To progress to UW and complete the BSN program students must meet the following criteria:

- Complete all BSN prerequisites and requirements
- Be conferred the ADN from a ReNEW community college program
- Pass the NCLEX-RN and have a 2.5 GPA in their nursing courses
- Or
- Have a 3.0 in nursing courses deferring the NCLEX-RN until graduation from the BSN program

It is recommended that all students consult a UW advisor as they progress through the ADN program in order to pursue their BSN.

Persons who change to a different major may need to take additional general education courses to meet the AS and AAS degree requirements if they were admitted into the ReNEW curriculum.

Revised 8/10/16 PD

Location and History

Casper College is located at the foot of Casper Mountain on the southern edge of the city of Casper, Wyoming. Situated near the center of the state and at the hub of Wyoming's road and highway system, the college is convenient to a wide area of central Wyoming. It draws students from every county of the state, many states in the nation, and the international community.

The Casper College associate degree nursing program began in the fall of 1969 with an enrollment of 37 students. The first class of 22 students graduated in the spring of 1971.

ReNEW Mission Statement

The mission of the Casper College H.E. Stuckenhoff Department of Nursing and ReNEW is to enhance the quality of nursing and health care in Wyoming by revolutionizing nursing education.

Adopted for ReNEW curriculum- TNF 2/12/15

ReNEW Philosophy of the Department of Nursing

The nursing faculty subscribes to the stated mission, vision, values, and goals of ReNEW in its entirety. We believe in the intrinsic value and worth of every person. We believe that health is a state of homeostasis influenced by forces impacting on the person. Nursing is a practice-oriented discipline that uses evidenced-based knowledge derived from the biological, physical, and behavioral sciences to provide safe and humanistic care to persons, families, groups, and communities. The art and science of nursing is the nucleus of the interdisciplinary health care system. We believe the goal of nursing is to use the nursing process and clinical judgment to promote and maintain health, prevent disease and disability, care for and rehabilitate the sick, and support the dying. Nursing education must have a strong clinical focus and allow opportunity to apply the theoretical component of nursing.

Learning is a dynamic lifelong process, occurring in the cognitive, psychomotor, and affective domains. Learning is the joint responsibility of the educator and the learner with each assuming the responsibility for learning and continued self-development. The role of the educator is to facilitate learning and leadership by providing an environment wherein students have the opportunity to establish goals, examine various means of attaining them, and evaluate the course of actions selected. Practitioners of nursing have a responsibility for professionalism and the mentoring of others. The nurse is a role model for clients, families, and communities in terms of practicing appropriate health behaviors.

Update ReNew C & E 7/17

ReNEW ADN End-of Program Student Learning Outcomes

Upon completion of the ADN program, the graduate will be expected to:

1. Provide safe nursing care within the healthcare system.
2. Incorporate prior knowledge, current research, and clinical experience in decision-making.
3. Demonstrate leadership skills as part of an interprofessional team to promote desired outcomes.
4. Use effective communication and advocacy to provide individualized care.
5. Practice within the core values, principles, and standards of the nursing profession.
6. Utilize the nursing process and a broad knowledge base to maximize health.

ReNew C & E committee 8/24

Assessment Results

Casper College Associate Degree Nursing Program uses the following criteria as measures of the effectiveness of the program:

1. **Admission Demographics:**

There will be admission of eligible person of diverse age, gender, socio-economic, ethnic, and educational background. The number of students admitted will be commensurate with faculty and facility availability.

2. **Achievement of End-of-Program Student Learning Outcomes:**

1. *Provide safe nursing within the healthcare system.*

- i. At least 50 percent of students successfully completing NURS 2400 will score a 3 and/or MET and/or Competent on selected KSA (Knowledge, Skill and Attitude) for Safety of the Medical/Surgical Clinical Evaluation Tool
- ii. At least 70 percent of students successfully completing NURS 2400 will achieve a 73-78 percent predicted passing probability on QSEN Safety items for ATI RN Predictor examination.

2. *Incorporate prior knowledge, current research, and clinical experiences in decision-making.*

- iii. At least 50 percent of students successfully completing NURS 2400 will score 3 and/or Met and/or Competent on selected KSA for Clinical Judgement on the Medical/Surgical Clinical Evaluation Tool.
- iv. At least 70 percent of students successfully completing NURS 2400 will achieve a 73-78 percent predicted passing probability on Thinking Skills: Clinical Judgement/Critical Thinking on the ATI RN Predictor examination.

3. *Demonstrate leadership skills as part of an interdisciplinary team to promote desired outcomes.*

- v. At least 50 percent of students successfully completing NURS 2400 will score 3 and/or Met and/or Competent on selected KSA for Leadership on the Medical/Surgical Clinical Evaluation tool
- vi. At least 70 percent of students successfully completing NURS 2400 will achieve a 70-79 percent predicted passing probability on Leadership items from ATI RN Predictor examination

4. *Use effective communication and advocacy to provide individualized care.*

- vii. At least 60 percent of students successfully completing NURS 2400 will score 3 or MET and/or Competent or select KSA for patient Centeredness on the Medical/Surgical Clinical Evaluation Tool.
- viii. At least 75 percent of student successfully completing NURS 2400 will achieve a score of 2.25 or greater on the grading rubric for Outcome 4 in the Portfolio Assignment Discussion of Core Competencies.

5. *Practice within the core values, principles, and standards of the nursing profession.*

- ix. At least 60 percent of students successfully completing NURS 2400 will score 3 and/or Met and/or Competent on select KSA for Professionalism on the Medical/Surgical Clinical Evaluation Tool.
- x. At least 75 percent of students successfully completing NURS 2400 will achieve a score of 2.25 or greater on the grading rubric for Outcome 5 in Portfolio Assignment Discussion for Core Competencies.

6. *Utilize the nursing process and a broad knowledge base to maximize health.*

- xi. At least 70 percent of students successfully completing NURS 2400 will achieve a 70-79 percent predicted passing probability on Nursing Process items for ATI RN Predictor examination.
 - xii. At least 75 percent of students completing NURS 2400 will achieve a score of 2.25 or greater on the grading rubric for Outcome 6 for Portfolio Assignment of Discussion Core Competencies.
- 3. Licensure Rate of Graduates:
There will be an NCLEX-RN pass rate of at least 80 percent for first time writers.
- 4. Graduation Rate:
At least 50 percent of those students who begin NURS 1100 or its equivalent will successfully complete the AND program within three years (six semesters).
- 5. Employment of Graduates:
At least 85 percent of new graduates returning the graduate survey who have sought employment will indicate on the six-month graduate survey that they are employed in nursing.
- 6. Associate Degree Graduates Pursuing BSN:
At least 60 percent of Associate degree graduates from Casper College will be continuing their education with UW or another BSN program.
- 7. Critical Thinking:
The group composite score on the ATI Critical Thinking Exit Exam during NURS 2400 will meet or exceed the national group mean score.
- 8. Meets Standards of the College, Regulatory, and Accrediting Agencies:
The program will continue to meet the standards of the College, the Wyoming Community college Commission, North Central Association, the Wyoming State Board of Nursing, and the National League for Nursing Accrediting Association Commission.

Revised EC 12/22-PD

Glossary of Terms

Accountable	• The state of being answerable for one's actions.
Client/patient/resident	• Recipient of a health care service to be used interchangeable as applicable.
Clinical	• Setting in which students learning about and practice nursing care.
Clinical "Not Met"	• Student must withdraw from the semester but is able to return to the program, unless there is an egregious event that prevents readmission, IE: Safety violation.
Clinical laboratory	• Experiences in nursing care on-campus laboratory.
Clinical practicum	• Experiences in nursing care in the following settings: agency facilities and simulation.
Collaboration / teamwork**	• To function effectively within nursing and inter-professional teams, fostering open communication, mutual respect, and shared decision-making to achieve quality patient care.
Commonly recurring health problems	• Disorders statistically most common to a geographic region, culture, gender, or age group.
Communication	• A 2-way process involving the sending and receiving of messages.
Critical thinking	• A nonlinear cognitive or mental process that involves rational examination and analysis of all information and ideas and the Formulation of conclusions and decisions
Cultural	• Related to a learned pattern of behaviors, reliefs, values, attitudes, and practices shared by a specific group of people.
Delegation	• Transferring to a competent individual the authority to perform a selected nursing task in a selected situation.
Developmental	• Act or process of progressing in a prescribed manner.
Distance education	• A formal education process in which the majority (50% or more) of the program instruction occurs when a student and instructor are not in the same place (as defined by the Casper College Nursing Department Unit.
Evidence-based practice (EBP)**	• Integration of best current evidence with clinical expertise and patient/family preferences and values for delivery of optimal health care.
External environment	• Everything that surrounds the person that is not part of the person.
Health	• State of balance and harmony; the opposite of illness.
Health care system	• Facilities, services, or providers of lines care (restorative) or health care (preventive) to the general public.
Hybrid courses	• Hybrid courses combine both classroom and on-line teaching and learning. Hybrid courses meet in the classroom on a regular basis and are supplemented with on-line lessons throughout the week, classroom attendance is mandatory for all hybrid courses.
Holistic	• The whole entity, pertaining to all aspects, which is more than the sum of all its parts.
Homeostasis	• A state of dynamic equilibrium.
Humanistic	• A concern for the welfare, values, and dignity care of persons.
Illness	• A state of inadequate or absent adaptation
Informatics*	• The use of information and technology to communicate, manage knowledge, mitigate error, and support decision making
Interdisciplinary	• Involving two or more fields that are usually considered distinct.
Interpersonal skills	• Verbal and nonverbal means of exchanging information or feelings between two or more people.
Learning	• A process involving change in behavior that is acquired through practice or experience.
Mentoring	• A one-to-one, long-term relationship used as a strategy to facilitate the ongoing development of nursing faculty, encompassing orientation to the faculty role, socialization to the academic community, development of teaching skills, and facilitation of the growth of future leaders in nursing

Nursing	education (adapted from the NLN position statement on Mentoring of Nurse Faculty issued by the Board of Governors, January 28, 2006).
Nursing care	• The discipline responsible for protecting and promoting health and abilities, preventing illness and injury, and treatment of human responses to actual or potential health problems.
Nursing process	• Application and utilization of the nursing process. • A systematic method which allows for flexibility and creativity in applying nursing knowledge for the purpose of solving nursing problems. The process consists of five components. 1. Assessment – the process of collecting and organizing data from a variety of sources; 2. Nursing diagnosis – a statement which identifies actual or potential problems within the scope of nursing; 3. Planning – specification of outcomes and interventions designed to resolve the client’s problems; 4. Implementation – the execution of interventions which work toward meeting planned outcomes; 5. Evaluation – the appraisal of client response to nursing interventions considering progression toward outcome achievement.
Outcomes	• The predetermined result or consequences of nursing action.
Patient-centered care**	• Care which recognizes the patient or designee as the source of control and full partner in providing compassionate and coordinated care based on respect for patient’s preferences, values and needs.
Person	• Any member of the human race without regard to age, gender, or national origin who is an interacting open system; a composite of physiological, psychological, sociocultural, developmental, and spiritual dimensions.
Physiological	• Bodily structure and function.
Preceptor	• An expert or specialist who gives practical experience and training to a student.
Psychological	• Mental processes and relationships.
Quality Improvement (QI)**	• The use of data to monitor the outcomes of care processes improvement and use improvement methods to design and test changes to continuously improve the quality and safety of health care systems.
Responsibility	• The sense of being reliable and trustworthy and functioning within a prescribed role.
Role	• The pattern of behavioral responses to a person or social group with whom an individual interacts in a particular situation.
Safety**	• Practice that minimizes risk of harm to patients and providers through both system effectiveness and individual performance.
Sociocultural	• Combined sociological and cultural functions.
Sociological	• Roles and identities within a group.
Spiritual	• The influence of metaphysical beliefs.
Standard nursing intervention	• Measures that are established by nursing authorities that implements specific objectives.
Web-enhanced	• Students meet face-to-face during scheduled hours and have resources and/or activities available in an online environment to augment traditional instruction.

Revised: S, 4/29/10 EC, 5/6/16 TNF

The H.E Stuckenhoff Department of Nursing at Casper College has joined with the other Community College Nursing programs and the Fay W. Whitney School of Nursing at the University of Wyoming to develop a common nursing curriculum for the state of Wyoming. The “Revolutionizing Nursing Education in Wyoming” (ReNEW) curriculum is a baccalaureate nursing curriculum with an Associate Degree in Nursing benchmark. Under the ReNEW curriculum, persons who enter a nursing program at a community college in Wyoming will be able to complete their Associate Degree in Nursing (ADN), sit for the national licensure exam (NCLEX-RN) and begin working as a registered nurse as they complete the ReNEW BSN. All ReNEW Completion coursework from UW is delivered at distance. The majority of ReNEW Completion coursework is available concurrently with the ADN Benchmark. All UW coursework can be completed after earning the ReNEW ADN Benchmark.

Casper College ReNEW Associate Degree in Nursing (ADN) Benchmark curriculum

Casper College Nursing ReNEW Curriculum Plan – ADN					Total ADN Credits
Note: Proficient score or higher on TEAS necessary for application o program.					
Prerequisites	ENGL 1010: English Composition I			3	
Green courses are prerequisites for the ADN Program.	MATH 1400: College Algebra			4	
	ZOO 2040 and ZOO 2041/2015: Human Anatomy/Lab or equivalent			4	
	HLTK 1200: Medical Terminology			3	
				Total credits	14
ADN Year One	Semester 1	Credits	Semester 2	Credits	
Blue courses are co-requisites (or may be taken with BSN Prerequisites**) All blue courses are available at Casper College	NURS 1100: Professional Nursing Care in Health Promotion	10	NURS 1200: Professional Nursing Care of the Patient with Chronic Illness	10	
	ZOO 2110/2025: Human Physiology (or equivalent)	4	PSYC 1000: General Psychology	3	
	CMAP 1550 e-Portfolio	1			
	HLTK 1000: Healthcare Calc ('B') or better	2			
	Total Semester Credits	17	Total Semester Credits	13	30
			Total	Credits	44
Completion of all requirements to this point meets benchmark for optional PN Certificate					
ADN Year Two	Semester 3	Credits	Semester 4	Credits	
	NURS 2300: Professional Nursing Care of the Patient with Acute Illness	10	NURS 2400: Professional Nursing Care of the Patient with Complex Illness	10	
	ENGL 1020	3	POLS 1000: US and WY Gov't	3	
	Total Semester Credits	13	Total Semester Credits	13	
			Total	Credits	26
Associate Degree in Nursing Benchmark with Degree conferred. Total ADN credits.					70

Students should be aware that changing from the Associate Degree in Nursing (ADN) to the Associate of Applied Science (AAS) or Associate of Science (AS) in another Casper College program may need additional courses to meet general education requirements of the degree.

ReNEW BSN Completion at UW consists of three parts: 1) the ReNEW ADN Benchmark completed at a Wyoming ReNEW program, 2) related coursework such as microbiology, nutrition, etc., and 3) UW ReNEW Coursework. For individual planning, contact the FWWSON at: ReNEW@uwyo.edu or visit the generic ReNEW Plans of Study at: <http://www.uwyo.edu/nursing/programs/renew/index.html>.

BSN COMPLETION PROGRAM OF STUDY: ReNEW

For graduates and current students of a Wyoming ReNEW ADN
program

2025-2026

UNIVERSITY STUDIES PROGRAM (USP): All UW students complete the University Studies Program: www.uwyo.edu/unst

RELATED COURSEWORK: *These courses may be taken in conjunction with nursing courses pursuant to pre-requisite requirements. Grades of C or better are required.*

MATH 1000 or 1400 - Math.....	3
<i>MATH 1400 may be required for other related coursework</i>	
STAT 2050 or 2070 - Statistics	4
FCSC 1140 or 1141 - Nutrition	2-3
Humanities Elective Course	3
LIFE 1010 - General Biology	4
CHEM 1000 or 1020 - Intro or General Chemistry	4
<i>Must have a grade of B or better if taking CHEM 1000</i>	
MICR/MOLB 2021 or 2240 - Microbiology	4
NURS 4650 - Pathopharmacology for Nurses.....	4
<i>Prereq's: LIFE 1010, CHEM 1000/1020, Human Anatomy, & Human Physiology</i>	
Approved upper division elective coursework	2-3

Total Related Coursework Hours: 30-32

NURSING COURSEWORK: *2-credit courses are delivered as 8-week, half-semester blocks. Fall and Spring semesters offer first- half and second-half blocks. Summer semester is a single block. Grades of C or better are required.*

ENTRY POINT: Students can enroll in these courses while enrolled in a Wyoming ReNEW ADN program.

Tier 1

NURS 3006 - BSN Completion Foundations.....	2
---	---

Tier 2

Prereq's: Completion of Tier 1

NURS 4055 - Application of Evidence in Nursing Practice	3
<i>Satisfies USP COM3; Prereq's: STAT 2050/2070, COM1 & COM2</i>	
NURS 4630 - Public/Community Health	2
NURS 4830 - Leadership in Healthcare Today	2

Tier 3

Prereq's: Completion of Tier 2

NURS 4665 - Healthcare Informatics	3
NURS 4635 - Community as Client	2
NURS 4640 - Health Equity	2
NURS 4645 - Population Health.....	2
NURS 4675 - Healthcare Policy.....	2
NURS 4840 - Healthcare Systems	2

Tier 4

Prereq's: Completion of Tier 3, ReNEW ADN degree, & ALL Related Coursework

*Registration for these courses is granted only after completion of all Tier 1, 2, and 3 courses, ReNEW ADN degree, all related coursework, and formalizing enrollment.

NURS 4835 - Leading Nursing Practice	2
NURS 4845 - Innovation in Nursing Practice	2

EXIT POINT: This is the last class that a student will take in their degree program which can be taken concurrently with NURS 4835 & NURS 4845.

NURS 4855 - Contemporary Nursing Practice	2
---	---

Total Nursing Coursework Hours: 28

MINIMUM HOURS REQUIRED FOR DEGREE 120

ADDITIONAL INFORMATION:

- Thinking about applying to this program? Please email renew@uwyo.edu to speak with our Academic Advisor for more information!
- USP REQUIREMENTS are met via the ReNEW ADN, verification of approved US & WY Constitutions course, and NURS 4055.

For planning purposes only: Please review the [UW Website](http://uwyo.edu) for the most up to date course work/plan for BSN

2026-2027 NURSING DEPARTMENT

Committee Members

* Committee Chair

Revised S, F - revised 08.26 – PD

Student Representation to Committees

Total Nursing Faculty (TNF)– Associate Degree Nursing students are elected each semester to represent their respective cohort to the TNF, one from each semester, and report student issues/concerns to the monthly semester meetings. The semester cohort representative will communicate with their semester faculty via e-mail and/or attendance at monthly meetings. That information is to be presented to the TNF by each semester coordinator.

Curriculum Committee - the student member is a third semester nursing student in good standing who is elected from the student body.

Evaluation Committee - the student member is a fourth semester nursing student in good standing who is elected from the student body.

Resource Committee - the student member is a second semester nursing student in good standing who is elected from the student body.

Revised 3/6/14 TNF

Executive sessions will be for faculty only.

Department Committee representatives participate through attendance at monthly committees' meetings.

A schedule will be provided to representatives at the beginning of the semester.

Ensure that item brought to Semester Faculty represent the opinion of the majority of the cohort and not the opinion of one or two students.

Updated 6/18 PD

Guidelines for Student Cohort Representatives

Participation in Semester Meetings for TNF:

In order to prepare for semester meetings, the following guidelines have been provided.

The purpose of student representation at semester meetings is to provide a vehicle for dialogue related to the overall nursing education program. You will bring your report from your semester cohort to the Semester faculty meeting. That information is then brought before the faculty at the following TNF meeting.

Individual concerns related to specific instructors /classes are to be handled according to the chain of resolution which can be found in the student handbook.

Suggested questions for gathering student feedback could include:

1. What is working well in lecture? In lab?

2. What is not working well in lecture? In lab?
3. Are there any needs that are not being addressed?
4. If applicable, have changes that have been implemented proved to be helpful? If so, how? If not, why
5. Are there any other comments, situations or ideas that the students would like to convey?

The faculty will report back to you following the TNF meeting. As the Semester representative, please be sure to convey information from the faculty back to your student group.

Thank you for your time and energy in this important role.

Revised-PD – 8/23

Nursing Organizational Chart

2026-2027 Academic Year

Revised 08.26 PD

Channels for Resolution School of Health Science

Channel Direction

The student may bring a support person (i.e. family member, friend, peer) for nonverbal personal support to any level of the channels of resolution.

* At any point in the chain, the student may seek advice from Student Services, with the understanding that Student Services has no authority to adjudicate in academic issues. If the student deems it necessary, they may advance to the next step in the Chain of Command for resolution.

There also is information in the code of conduct.

Revised-RC – 5/20

H.E. Stuckenhoff Department of Nursing

General Policies

Code of Conduct

Students of nursing have a responsibility to society in learning the academic theory and clinical skills needed to provide nursing care. The clinical setting presents unique challenges and responsibilities while caring for human beings in a variety of health care environments.

The Nursing Student Code of Conduct is based on an understanding that to practice nursing as a student is an agreement to uphold the trust that society has placed on nursing as a profession. The statements of the Code provide guidance for the nursing student in the personal development of an ethical foundation and need not be limited strictly to the academic or clinical environment but can assist in the holistic development of the person.

Code of Conduct for Nursing Students

As students are involved in the clinical and academic environments, ethical principles are a necessary guide to professional development. Therefore, within these environments the student nurse is expected to:

1. Advocate for the rights of all clients.
2. Maintain confidentiality.
3. Take appropriate action to ensure the safety of clients, self, and others.
4. Provide care for the client in a timely, compassionate and professional manner.
5. Communicate client care in a truthful, timely and accurate manner.
6. Actively promote the highest level of moral and ethical principles and accept responsibility for personal actions.
7. Promote excellence in nursing by encouraging lifelong learning and professional development.
8. Treat others with respect and promote an environment that respects human rights, values and choice of cultural and spiritual beliefs.
9. Collaborate in every reasonable manner with the academic faculty and clinical staff to ensure the highest quality of client care
10. Use every opportunity to improve faculty and clinical staff understanding of the learning needs of nursing students.
11. Encourage faculty, clinical staff, and peers to mentor nursing students.
12. Refrain from performing any technique or procedure for which the student has not been adequately trained.
13. Refrain from any deliberate action or omission of care in the academic or clinical setting that creates unnecessary risk of injury to the client, self, or others.
14. Assist the staff nurse or preceptor in ensuring that there is full disclosure and that proper authorization are obtained from clients regarding any form of treatment or research.
15. Abstain from the use of alcoholic beverages or any substances in the academic and clinical setting that impair judgment.

16. Strive to achieve and maintain an optimal level of personal health.
17. Support access to treatment and rehabilitation for students who are experiencing impairments related to substance abuse and mental or physical health issues.
18. Refrain from any form of cheating or dishonesty to include sharing of information from nursing exams or skills checkouts between students, and take action to report dishonorable practices to proper authorities using established channels. Refer to AI policy in Nursing Course Syllabus.
19. Refuse to engage in, or condone, discrimination on the basis of race, gender, age, citizenship, religion, national origin, sexual orientation, or disability.
20. Uphold college and departmental policies, regulations and codes of conduct related to academic and clinical performance, reserving the right to challenge and critique rules and regulations as per school grievance policy.

Misconduct Policy

Student misconduct, whether academic or disciplinary, is in direct conflict with the principles and philosophy of professional nursing. Student misconduct of any type will not be tolerated as it lowers the standards of nursing practice, and consequently jeopardizes the safe provision of client care, affecting the lives and well-being of the public.

For inadequate academic performance:

- ◆ Letters will be sent to students with non-passing grades at mid-term notifying them of their academic status and possible course failure.
- ◆ This will include instructor suggestions that might enable students to successfully complete the course.
- ◆ If applicable, a reminder of the course withdrawal date as stated in the individual course syllabus, as well as the consequences of course failure should be included in the letter.

For inadequate clinical performance:

- ◆ Students are notified of deficiencies through clinical evaluations.
- ◆ “Not Met ‘clinical performance is dealt with according to the nursing student handbook.
- ◆ Student Presentation Guidelines will be followed and reviewed with the clinical instructors to determine the student’s status and continuation in the course based in the student’s ability to meet the course outcomes and provide safe client care.
- ◆ Procedures for the Student Presentation Guidelines are described within this nursing student handbook as well as the faculty handbook.

Disciplinary misconduct stems from the student’s failure to comply with the H.E. Stuckenhoff Department of Nursing Student Code of Conduct, the Casper College Student Conduct Code, or with the college or any clinical facility’s rules and regulations. Examples of misconduct are described in the Casper College Student Handbook and include, but are not limited to: cheating, allowing access to information to support cheating, plagiarism, alcohol and/or substance use on campus or in the clinical setting, and behavior not in alignment with the standards and ethics of the nursing profession. The use of AI per the syllabus will be included in this misconduct.

- ◆ The student will be notified verbally and/or in writing of the charges with specific reference to the policy, rule or regulation allegedly violated.
- ◆ After notification, the student will provide a written response to the complaint.
- ◆ Initially a meeting between the student and the faculty member will be set within one working business day to attempt to resolve the problem.
- ◆ If the issue remains unresolved, the student will be presented before faculty in order to speak on his/her own behalf.
- ◆ At that time, the student will be given an opportunity to discuss the situation and share any relevant information with faculty
- ◆ This presentation will take place within three working business days from the initial notification.
- ◆ The instructor has the authority to assign a not passing grade or 'Not Met' Clinical grade for the assignment or examination, and/or a not passing grade for the course.
- ◆ Faculty may determine the need for further disciplinary action, which may include an 'Academic Warning', suspension or expulsion from the nursing program.
- ◆ Students may pursue further hearing procedures as described in the Casper College Student Conduct and Judicial Code.

Student's signature on the Student Agreement in the Nursing Student Handbook signifies that s/he has read and agrees to uphold this Nursing Student Code of Conduct.

(Adapted from the National Student Nurses' Association, Inc. Code of Academic and Clinical Conduct, which was adopted by the NSNA House of Delegates, Nashville, TN, on April 6, 2001.)

Reviewed – F,S – 5/09-EC, L3

Background Check

As a nursing student you are asked to complete additional requirements than are needed by the general college student. One of these requirements is a background check. The background check that is required of you includes the research in the following areas:

- U.S. County Criminal
- Residency History (additional counties will be searched, within the previous 7 years)
- Social Security Verification
- Nationwide Sexual Offender Registry
- Nationwide Healthcare Fraud & Abuse
- Nationwide U.S. Patriotic Act

This is an applicant funded process via

<https://www.myclinicalexchange.com/MainPage.aspx?ReturnUrl=%2f>

The cost is yearly.
Revised– 1/22 -PD

Drug Screening Policy

All nursing students must be tested for drug and alcohol prior to beginning the clinical experience. The Drug test must be a 10 panel. Students are subject to random drug testing at clinical facilities. See the Chemically Impaired Health Science Student policy, the Procedure for the Allegedly Chemically Impaired Health Science Student, and the Intervention Meeting for policy application.
Revised– 1/22-PD

Confidentiality

Students and faculty are required to maintain client, family and peer confidentiality in every setting. The client's medical record is the property of the healthcare facility. Copies of the client's medical record shall not be removed from the agency premises. If a student is found to be non-compliant (breach of confidentiality) could result in the student's dismissal from the program.

Reviewed/Revised—06/26 PD

Attendance

1. Casper College:

"Students are expected to attend all classes for which they are registered and are accountable for all class work during an absence. Non-attendance at a required class, laboratory, rehearsal, or field trip constitutes an absence. Excessive absences or tardiness may result in a lowered grade, and at the discretion of the college administration, a student who fails to attend regularly may be requested to withdraw from college." From: the current Casper College Catalog.

Students who arrive late to a scheduled class are not permitted to enter the classroom unless prior arrangements have been made with the course instructor. If prior arrangements have not been made, the student must remain outside the classroom until the next scheduled class break, at which time the student may enter the classroom.

A student missing a test date and course material during jury duty will be accommodated on an individual basis with testing being proctored as near to the original test date as possible and instructors providing supportive assistance as needed for course material. (TNF 2-4-16)

Classes absences for a student with extenuating circumstances, must be approved by the faculty and/or the Nursing Program Director. Otherwise, the student will fall under the Casper College absence policy.

2. H.E. Stuckenhoff Department of Nursing: Clinical Absences

- A. Due to the essential application of nursing skills in a clinical setting, students are expected to be on time and attend all clinical labs & practicums (clinical sites and simulation) as well as any associated pre- and post-conferences.
- B. Students may be sent home and charged with absence if unprepared, ill, excessively, fatigued, unprofessional behavior, or under the influence of any substance.
- C. Students are responsible for completing any required literature searches and preparation activities prior to attending clinical, lab, or practicum experiences.
- D. Students are responsible to report all absences (or anticipated late arrivals) prior to each clinical experience by phoning the appropriate clinical instructor at least 30 minutes prior to the scheduled start time of clinical practicum or campus lab. Students who demonstrate a pattern of multiple absences will be accountable to semester faculty and will accrue absence time.
- E. Due to the rigorous nature of the program and attendance requirements, vacation-related absences are generally not accommodated.
- F. Absence time accrues in 15-minute increments in all cases (e.g. 1-15 minutes late will be reflected as a 15-minute absence on the clinical evaluation).
- G. Absence without notification will result in accrued absence time and/or an 'Not Met' grade/score for the clinical week:
 - 1. First absence/tardy without proper notification will be addressed under "Role" and will result in earning an 'Approaching Competency' grade/score.
 - 2. Second absence without proper notification and will result in earning an automatic 'Not Met' grade/score.
 - 3. If absent without notification for greater than 30 minutes (no call, no show), an 'Not Met' grade/score will automatically be earned.
- H. Accrued absence time resets at the beginning of each semester; however, recurring attendance concerns may be monitored as part of professional and clinical performance expectations.
- I. Clinical practicum absence time criteria are as follows:

Course	Practicum/Clinical Absence time (clock hours)	Make-up Time
NURS 1100 NURS 1200	>2 hours – 12.5 hours	Attend the scheduled clinical make-up day
NURS 2300	>12.5 hours – 24 hours	Complete assigned ATI Virtual Sim
NURS 2400	Due to nature of preceptorship	Reschedule missed shift

Clinical time: If more than 2 hours and up to 12.5 hours of clinical time are missed, the student will be required to attend the scheduled clinical make-up day built into the semester clinical schedule.

If more than 12.5 hours and up to 24 hours of clinical time are missed, the student will be required to complete faculty-assigned ATI virtual simulations and assignments. Students must successfully meet the identified clinical objectives associated with the missed clinical experience. The required simulation activities may vary by semester based on the number of weekly clinical hours.

Additional assignments, including a presentation, may be required at the discretion of the semester faculty.

Due to the importance of meeting clinical objectives and required clinical hours, students are limited to two clinical make-up days per semester. If more than 24 hours of clinical time are missed in any semester, the student will be unable to meet course requirements and will therefore be required to withdraw from the course with a clinical 'Not Met' grade/score.

Students participating in official Casper College-sponsored activities, including intercollegiate athletics, may request an excused absence through the Nursing Program Director. Requests should be submitted as far in advance as possible and include documentation of the scheduled activity. Approved absences may require completion of make-up assignments, examinations, clinical experiences, simulations, or other learning activities to ensure course and clinical outcomes are met.

Attendance expectations for campus lab experiences may or may not differ from clinical practicum attendance requirements. Excessive absence from campus lab may prevent the student from meeting required course objectives and may result in withdrawal from the course with a clinical unsatisfactory.

For missed lab experiences students are required to attend scheduled clinical make-up experiences as assigned. However, missed campus lab content cannot always be replicated in a make-up format. Students are therefore responsible for learning all missed material and completing any required assignments, skills check-offs, remediation activities, or additional learning experiences as determined by faculty.

Absence time for more than two hours simulation require a make-up simulation day.

1. The students have to notify the simulation center, schedule a day and watch the videos all the videos of the relative course.
2. The student will have to complete the "Observer Checklist, for each simulation, along with other assigned work from the course instructors and submit by the deadline.
3. Complete a case study for a patient in ATI, as assigned by the classroom instructor.

Absences due to medical conditions will be reviewed on an individual basis. College mechanisms for due process are preserved, (see current catalog for a complete description of student rights and responsibilities).

- J. If absent from clinical lab or practicum during the last clinical week, a primary care provider's written excuse will be required. Completion of a special written assignment

may also be necessary. The assignment must be completed and submitted to the designated clinical instructor by the specified due date. Extenuating circumstances (i.e. death in the family, accident, etc.) during the last clinical week will be evaluated by faculty on an individual basis.

Revised 08/24 TNF/PD

Clinical Clock Hours vs. Clinical Credit Hours

Casper College defines one (1) credit hour as 50 minutes of class time. Since clinical time is not limited to 50-minute segments, but runs sequentially, the department defines that one (1) clinical clock hour (60 minutes) is equivalent to 1.2 clinical credit hours. Students are in clinical 12.5 clinical clock hours per week and are given credit for 15 Clinical Credit Hours. To determine how many Clinical Credit Hours are missed by a student when absent, use the following:

Each 1-15 minutes of clinical time = 0.3 clinical credit hours

Each 16-30 minutes of clinical time = 0.6 clinical credit hours

Each 31-45 minutes of clinical time = 0.9 clinical credit hours

Each 46-60 minutes of clinical time = 1.2 clinical credit hours

Revised 04/16 – CC/TNF

Comprehensive Assessment and Review Program (CARP)

The nursing program utilizes ATI's Comprehensive Assessment and Review Program (CARP) to assist students in preparing for the NCLEX®. This program is designed to systematically strengthen students' knowledge base throughout their nursing education, support success on nursing program examinations, and improve NCLEX® pass rates.

Each semester, students pay a fee to participate in the ATI program. Students are strongly encouraged to actively engage with ATI resources to support learning, remediation, and test-taking skill development.

A portion of the ATI fee contributes to the cost of a live NCLEX® review conducted on campus by an ATI Nurse Educator during the fourth semester.

Please note that ATI fees are non-refundable.

Updated 05.15.26 PD

Final Exam Testing Policy for Semester 2 and Semester 4 Nursing Students

NURS 1200 students will take the ATI-PN Comprehensive Predictor Exam and NURS 2400 students will take the ATI RN Comprehensive Predictor Exam on the scheduled dates. This test will be proctored and the students must test at the assigned time.

- Students earning 99% probability of passing the NCLEX are excused from the final exam and awarded 200 points for the final exam
- Students earning below 99% probability of passing the NCLEX will be required to:
 - Complete the ATI focused remediation.
 - Take the second ATI Comprehensive Predictor Exam as scheduled in the course.
- Students earning 99% probability of passing the NCLEX on the second predictor exam are excused from the final exam and awarded 180 points for the final exam.
- Students may opt to take the final exam and use the highest score - actual final or 180 points from ATI Predictor exam.

- Students earning below 99% probability of passing the NCLEX will be required to take the final.
- Students earning below 90% probability of passing the NCLEX on the second predictor exam are recommended to perform the appropriate remediation.
- Students who have missed a unit test must take the final exam to replace that score
- Students will only earn the 200 or 180 Comprehensive Predictor points if passing the course unit exams with 75% or greater average.

Revised 1/12 – EC, Revised 1/23 PD

Computer and Technology Requirements

All nursing students are required to have regular access to a personal computer that meets the minimum specifications outlined below. Students are responsible for ensuring their device remains functional and capable of supporting required course software throughout the program.

Required Device

Students must have access to a laptop computer. Tablets, Chromebooks, smartphones, and other mobile devices may be useful as supplemental tools but are not considered adequate substitutes for a laptop computer.

Minimum Specifications

- Operating System:
 - Windows 10 or newer
 - macOS 13 (Ventura) or newer
- Processor:
 - Intel i5 equivalent or higher
 - Apple M1 processor or newer recommended
- Memory (RAM):
 - Minimum 8 GB
 - 16 GB recommended
- Storage:
 - Minimum 256 GB available storage
- Internet:
 - Reliable high-speed internet access
 - Ability to participate in live video conferencing
- Webcam and Audio:
 - Functional webcam
 - Microphone
 - Speakers or headphones

Software Requirements

Students must be able to access and utilize required educational platforms, including but

not limited to:

- Moodle Learning Management System
- ATI Testing and Learning System
- ExamSoft/Exemplify
- Zoom or other video conferencing software
- Microsoft Office (Word, Excel, PowerPoint)

Unsupported Devices

The following devices may not be compatible with required testing or educational software and are not recommended as a student's primary device:

- Chromebooks
- Linux operating systems
- Tablets used as the sole computing device
- Smartphones used as the sole computing device

Technical Responsibility

Students are responsible for:

- Maintaining a functional computer throughout the program
- Installing required software updates
- Backing up important files
- Ensuring adequate internet access
- Resolving personal technology issues in a timely manner

Technology failures, internet outages, forgotten passwords, or device malfunctions generally do not excuse missed assignments, examinations, clinical requirements, or deadlines.

Technical Support

Students experiencing technology issues should seek assistance promptly through the appropriate software vendor, Casper College Information Technology Services, or the course instructor as appropriate.

General Testing Policies

1. The course instructor(s) are responsible for developing and administering course examinations.
2. The course exams will be administered through ExamSoft application software or Moodle.
3. All semesters can highlight in the ExamSoft and Moodle exams,
4. Exam Practices:
 - a. One question per page:
The presence of more than one question per page is distracting to students. Students should focus on the question at hand and provide the answer.
 - b. No option to return to previous questions:
Faculty have found that the temptation to change an answer has been detrimental to

student grades. The option to return to previous questions is not part of the NCLEX-RN.

- c. Each exam examination question (unit and final) will be assigned a time limit based on the student's level of progression within the nursing program. Time allotted per question will increase progressively by semester and range from 1.5 to 2 minutes per question.
5. No make-up exam or quizzes will be offered, unless otherwise indicated by syllabus and grading policy (i.e., dropping lowest math quiz grade). Points for the first missed unit exam will be added to the value of the final exam. If more than one unit exam is missed, those missed unit exams will result in a 0 (zero) grade in the grade book, unless there are extenuating circumstances that were appropriately and professionally communicated to faculty and then agreed upon by the course/classroom faculty and the Nursing Program Director.
6. Collaborative exams may be done following each unit exam with points awarded according to group scores. If the student is absent the day of the scheduled collaborative exam, the opportunity for earning collaborative points is forfeited. Collaborative points will only be awarded to a student who has earned 75 points or more on his/her unit exam.
7. Exam questions are reviewed for effectiveness by the classroom instructors after each exam.
8. Exam scores will be posted in Moodle within 24 to 48 hours after exam completion.
9. Course points are outlined in the course syllabus. Point ranges correlate with the following percentiles in determining grades:

Grade	Point range based on the following percentage ranges
A	100-91
B	90-83
C	82-75
D	74-70
F	≤ 69

These percentages are used to determine grading point ranges for unit exams, midterm grades, final exam and course grade point ranges. Please note the grading scale is based on a higher standard than the campus at large.

10. You will not be allowed to take any NURS final exam until:
 - a. Property belonging to either the college or other agencies (i.e.- badges, etc.) has been returned to the department of nursing.
 - b. Course evaluations are completed.
 - c. If extenuating circumstance take place and the student is unable to take the final, the faculty and the Nursing Program Director will review. If the circumstances warrant an incomplete, then the student will work with the Nursing Program Director to complete the exam.
11. The following exam instructions apply to all exams:
 - a. All belongings must be placed at the front or the back of the classroom.
 - b. No baseball style caps or they must be turned around with bill to the back.
 - c. Jeans/pants with holes are not allowed.
 - d. It is recommended you use the restroom prior to starting the exam to avoid having to take time during the exam. If you must get up to use the restroom during the exam, you may not take anything with you, this includes phones.

- e. No additional time will be allowed on the exam.
- f. Phones must be set to vibrate or turned off and cannot be used until after collaborative testing is completed. For extenuating circumstances see your instructor.
- g. Additional electronic devices (i.e., Smart Watches, Smart Glasses, etc.) are not allowed to be used or worn during exam times.
- h. A Webster's dictionary will be available upon request during the exam. You must show a course instructor the term you wish to look up and s/he will determine if that is an appropriate term to be looked up.
- i. Sit quietly after you complete your exam. You may not access the web or use your computer for other activities, and you may not access books, notes or work on other projects after you have completed your exam.
- j. Students who are accommodated and finished with their test, will return to the classroom within 10 minutes of exam completion and sit quietly without cell phone.
- k. Keep your eyes on your own computer screen – students may not record your answers on a separate piece of paper.
- l. Put your name on your scratch paper. Keep your eyes on your own scratch paper. Scratch paper must be submitted at the conclusion of each exam.
- m. Test Remediation: NURS 1100 is as follows:
 - **Score on Exam (with collab points)**
 - Exceeds Standard = 91-100
 - Meets Standard = 83-90
 - Approaching Standard = 75-82
 - Does Not Meet = 74 and below

***Submit a completed copy of the Test Remediation Instruction & Contract along with completed remediation choices by the due dates. For Exam 1 you will only submit the Test Remediation Instruction & Contract.**

- Exam 1 Remediation is done in class together. S&O report will be available, in ExamSoft.
 - Exam 2 Remediation specific due date as per syllabus (bring the completed remediation choices to class) S&O report will be available, in ExamSoft.
 - Exam 3 Remediation (bring the completed remediation choices to class) S&O report will be available in ExamSoft.
 - Exam 4 Remediation (bring the completed remediation choices to class) S&O report will be available in ExamSoft
 - Exam 5 S&O report will be available in ExamSoft
- n. Exam Remediation: NURS 1200, 2300, 2400 is as follows:**
- Students earning less than 75 on unit Exams are required to remediate.
 - View the Strengths and Opportunities (S&O) report in ExamSoft and determine the lowest content area on the test.
 - Complete the Exam remediation assignment in Moodle. This will be due one week after the exam.
 - If desired, you can meet with a classroom instructor to review the remediation assignment. Appointments are available for one week following the exam, and the remediation assignment must be completed before the appointment.
 - Exams must begin on time. The classroom door will lock at the start of class.

- o. No exam reviews are permitted.
 - p. Food is not allowed during Exams with the exception of hard candy per faculty instruction, and beverages must be in clear containers with a lid.
 - q. Transcription error from scratch paper to Exam answer will be accepted.
12. Any disclosure of information from nursing exams or skills check-outs between students will be considered a violation of academic honesty and may be grounds for expulsion from the program and the college (Code of Conduct for Nursing Students, #18, in the Nursing Student Handbook, and the Student Conduct Code: Article II.B.1.a. in the Casper College Student Handbook).

Updated 05.15.26 PD

Accessing Grades – MyCCInfo

1. Go to the Casper College homepage at www.caspercollege.edu
2. Choose “Current Students” near the top of the page.
3. Choose “myCCinfo” at the top of the page.
4. Follow the directions for inputting your username and password.
5. Then choose “Grades”
6. View your grades.

Clinical Evaluation

NURS 1100, NURS 1200, NURS 2300:

At the conclusion of each clinical rotation, students are expected to complete facility and instructor evaluations in Trajecsyst. To allow time for this process, students will be excused from the clinical site 15 minutes early on the final day of the rotation.

Evaluations will be available during the final week of each clinical rotation, as determined by semester faculty. Timely completion of evaluations is an important component of professional responsibilities and contributes valuable feedback for continuous program improvement.

If evaluations are not completed by the designated closing date, the instructor will follow up with the student. Completion of evaluations may be considered as part of the student's professionalism expectations, and any time designated for evaluation completion that is not utilized for its intended purpose may be reflected in clinical attendance records.

NURS 2400:

Clinical and preceptor evaluations are open throughout the rotations so that students can complete them as they finish clinical hours, these evaluations will be done through Trajecsyst.

Revised -8/22 PD

Classroom Evaluation

Course evaluations for those courses required following admission into the program will be completed using Qualtrics prior to taking the final exam. Casper College may collect samples of student work demonstrating achievement of the Casper College general education outcomes. Any personally identifying information will be removed from student work.

Revised 8/24 - PD

Clinical Information

In NURS 2400 of the nursing program, clinical time is preceptor-based and thus the clinical schedule requires flexibility. Based on agency placement, expenses may be incurred.

G, S 04/13 – CC

Clinical Skills by Semester

*All nursing skills and procedures are subject to the policies of the clinical agency. Students may perform skills for which they have received instruction and demonstrated competency, provided the skill is permitted by the clinical facility and supervised in accordance with program and facility requirements.

General Medication Skills

Route or Skill	1 st Semester	2 nd Semester	3 rd Semester	4 th semester
Oxygen administration	Students may connect tubing and transfer it from wall oxygen to portable oxygen. An instructor or designated nurse must do all other oxygen delivery or titration actions.	Students may connect the tubing and transfer it from wall oxygen to portable oxygen. An instructor or designated nurse must do all other oxygen delivery or titration actions.	Students may connect tubing and transfer from wall oxygen to portable oxygen. An instructor must perform all other oxygen delivery or titration actions. Announcements

Students are responsible for checking their course or General Information for Nursing Students (GINS) Moodle site at least one time each week for program announcements and information or through your class Moodle. Student notification of specific program information or changes may be posted on announcements or sent via e-mail through this Moodle shell. This site is kept updated by the Nursing Program Director.

Cell Phone Use

1. See also the Health Science Social Media Policy Statement.
2. While in clinical settings, students must adhere to the agency policy for cell phone use.
3. During campus lab only, students may keep their cell phones with them, provided the device is set on vibrate mode.

Revised –6/17 PD

Agency Requirements - Departmental and Community

1. **AMERICAN HEART ASSOCIATION HEALTHCARE PROVIDER/CPR** - must remain current throughout the nursing program. A course will be offered to incoming and returning nursing students during the first few weeks of the semester.
2. **PPD** – a two-step TB test (two separate test), or a QuantiFERON TB will be required one time only. The clinical facility policy which requires specific or more frequent testing will prevail.
3. **Latex Allergy Questionnaire** has to be completed upon starting the first semester.
4. **Hepatitis series** - has to be started upon entering the program and completed by the following spring semester. Upon completion, proof of each injection must be submitted to the academic assistant within seven days of the due date. Proof of hepatitis titer is acceptable for this requirement.
5. **MMR** – proof of two (2) immunizations or positive titer has to be on file.
6. Evidence of current **Health Insurance** must be provided by the date specified by the Nursing Program Director upon admission to the program. The student acknowledges that he/she will maintain health insurance while in the nursing program. (See also the School of Health Science Health Insurance Policy Statement). If concerns please contact the Nursing Program Director.
7. **Chicken pox** –proof of two (2) immunizations or a positive titer has to be on file.
8. **Valid Driver's License** – two (2) copies must be provided upon entering program and upon renewal during the program. (See also the School of Health Science Student Driver's License and Automobile Liability Policy Statement.)

9. Evidence of current **Vehicle Liability Insurance** must be provided upon entering the program if the student will be driving to and from the clinical sites. The student acknowledges that he/she will maintain vehicle liability insurance while in the nursing program when driving to attend clinical experiences. (See also the School of Health Science Student Driver's License and Automobile Liability Policy Statement.)
10. A mandatory education packet, internet modules or orientation sessions may be required in order to meet agency requirement for non-employees. These are due by the required dates as indicated by the Nursing Program Director or faculty instructors.
11. **Background Check** the program and may be required yearly per clinical facility policies.
12. **Proof of flu vaccine** due once a year in the fall or per facility policies.
13. **PPE** may be mandatory per facility policies.

Revised 8/24- PD

Proof of Requirements for NURS 1100, Advanced Placement & Readmission Students

Proof of all of the above will be provided.

All requirements will be uploaded into MyClinicalExchange (MCE) and must be kept up to date.

For all nursing students, there is no grace period for a lapse in any of the dated requirements (Healthcare Provider CPR, PPD, hepatitis, insurance). If any of these requirements lapse, you will not be allowed in clinical until proof of currency is provided. Absence time will accrue.

Revised – 08/22 PD

Transferring and Lifting Patients/Residents

Students assisting with ambulation, lifting and/or transferring patients/residents may be required to attend in-service or training to comply with facility policies. Lifting and transfers are to be completed per facility guidelines.

TNF 10/29/15 S-F-PD

Latex Allergy Policy - Student

It is the policy of the H. E. Stuckenhoff Department of Nursing to minimize the risk of an allergic/anaphylactic reaction to latex, identify those at risk, and provide a latex safe environment. Students accepted into the nursing program must complete the "Latex Allergy Questionnaire" provided with their informational summer letter. Any student with a known latex allergy or sensitivity will be required to sign a departmental release and is encouraged to consult with their physician. If a latex allergy or sensitivity develops during the course of the student's nursing program, a departmental release must be again signed within two weeks of the occurrence.

The campus skills lab will routinely provide non-latex gloves for use.

- Skills lab orientation will include identification of products containing latex.
- Reasonable accommodations will be made for at-risk individuals whenever possible.
- Non-latex student lab kits will be made available to latex sensitive/allergic students for purchase. The cost of the kit will be the responsibility of the student.
- Educational material will be available in the skills lab and in the brochure, file located in the main hall on the second floor of the Saunders Health Science Center.

Reviewed- F, S – 10/08 - EC

Injuries/Illness

Students, who are ill or injured, whether on campus or in the clinical settings, will be referred to the college health service or appropriate medical facility. Agency Workers' Compensation Insurance does not cover students in clinical settings. Emergency room and/ or medical expenses incurred by the student are the financial responsibility of the student.

Students, with a history of a pre-existing injury, a chronic health problem or one who sustains an injury while a student, will be required to provide a physician's statement outlining any restrictions. A medical release must be provided to the Nursing Program Director for health-related issues that could impact a student's clinical experiences and educational outcomes in the nursing program.

If the student has a medical release for the clinical or lab setting but the restrictions on the release are not realistic for safe client care, the student may elect to work in the clinical setting and provide safe client care by signing a waiver that releases the college and faculty from any liability if the student should be injured in the clinical setting.

If the medical release does not allow the student to participate without restrictions, and the student chooses not to participate, absence time accrues from clinical and lab per the department absence policy.

If the student is on medical leave due to physical injury or restrictions at their place of employment the student needs to inform the Nursing Program Director of the situation. A decision will then be made as to whether the student may attend clinical.

Clinical Setting Waiver

I, _____, have a medical release to return to the clinical setting on
(Print name)
_____ to continue my education in the nursing program at Casper College.
(date)

My medical release includes the following restrictions:

_____ I will return to the clinical setting with the above stated restrictions and am signing this waiver to acknowledge that Casper College and the H.E. Stuckenhoff Department of Nursing have no liability should I sustain an injury providing client care. It is my sole decision to return to the clinical setting with the restrictions the physician has indicated.

OR

_____ I will not return to the clinical setting and understand absence time accrues and the absence policy will be implemented.

Letters of Recommendation and Information

In order for a faculty member to respond to a student request for a reference or letter of recommendation, a departmental release must be signed and given to the faculty member. Please obtain this release from the academic assistant or one of the faculty. This release along with a copy of the reference or letter of recommendation will be kept in the student's permanent file.

Simulation Activities

All admitted nursing students are expected to participate in simulation activities and consent to video recording to optimize instruction and learning, per the School of Health Science requirements.

Rules of the Simulation Department will be followed including civility and professionalism.

Revised 8/22 TF/PD

Dress Code

Students will be expected to maintain dress standards required by the H.E. Stuckenhoff Department of Nursing. These include the highest standards of cleanliness, neatness, professional taste, and safety. Students who do not adhere to these standards may be requested to leave the clinical or laboratory area and absence time will accrue. If you have any questions about the dress code, please see an instructor for clarification.

Uniforms are to be worn in all lab, simulation and practicum settings unless otherwise indicated.

1. Uniforms

- A. Casper College ReNEW uniform tops and black scrub pants should be purchased through the college. Supportive, non-slip, primarily black or white shoes with no holes are also required as part of the uniform.
- B. Uniforms must be neat, clean and wrinkle-free.
- C. No light or see-through fabric is allowed. No bare midriffs.
- D. Fit should be appropriate to the size of the individual. The pants hem should not touch the floor when standing. Leggings are not acceptable.
- E. Undergarments, chest hair, cleavage and/or gluteal cleft, should not show when leaning, squatting or bending over. No underwear should be visible.
- F. Nursing lab jackets, black, red, or white long- or short-sleeved turtleneck or crew neck undershirts without logos or advertisements may be worn under the uniform tops for additional warmth if needed.
- G. Students are required to follow the dress code during practicum experiences, and all campus lab activities including checkouts.
- H. Community appropriate attire with a lab coat will be worn to experiences at selected community-based agencies when picking up assignments and when attending professional activities per instructor directions. Business casual attire is appropriate. Business casual includes:
 1. Shirt with a collar, or polo style.
 2. Sweater
 3. Slacks
 4. Chinos or Dockers
 5. Skirts (at or below the knee in length)
 6. Loafers or lace-up shoes (must be closed-toe)

2. Shoes/Footwear
Primarily black or white shoes with a low or medium heel are required. Closed toed. No shoes with holes.
3. Lab Coats
Lab coats may be worn for warmth. Sweaters or sweatshirts should not be worn in client care areas.
4. Personal Hygiene
A neat, clean, fresh-smelling person is extremely important to the professional demeanor of a nurse. No perfume or heavily perfumed aftershave is to be worn, and no lingering odors of any kind are allowed on the skin or the breath. Such odors include, but are not limited to: tobacco products, topical medications, ointments or salves, and foods.
5. Cosmetics
These are to be used in moderation for daytime wear. Fingernail polish must be free of chips and accessories. Natural fingernails should be shorter than a ¼ inch in length and neatly trimmed.
6. Hair
Hair, including facial hair, must be neatly trimmed, clean, styled for safety, and if shoulder length or longer, contained to avoid client contact. *No yarn ties, ribbons, or scarves are allowed. Clips or scrunchies are acceptable.
7. Jewelry
 - ◆ Watch - must be worn with either a digital or sweep second hand.
 - ◆ Rings - a plain wedding band may be worn. No rings with elevated stones or ornate metal work are acceptable and only one ring may be worn on each hand.
 - ◆ Bracelets - no bracelets will be worn.
 - ◆ Necklaces - small, neat chains and pendant necklaces that will not come in contact with the client or become entangled during direct client care may be worn.
8. Tattoos
Tattoos are allowed to be visible provided the tattoo(s) are not considered offensive either by faculty, co-workers or patients. Faculty reserves the right to determine if a tattoo is offensive and will require the student to cover the tattoo during clinical hours.
9. Identification Badge, Incidentals
The identification badge is to be worn on the uniform with the Casper College patch. Students must each have a black pen, a pair of bandage scissors, protective eyewear, penlight, and a Sharpie marking pen in clinical settings. Waist packs are acceptable.
10. Smoking
There is to be no smoking or vaping during any clinical and lab time. Students may not leave the clinical or lab setting to smoke or vaping. Students may not subject others to their

secondhand smoke. Students must refrain from smoking/ vaping prior to clinical and/or clinical activities as the smoke/ vaping can cling to clothes and be an irritant to clients and others. This includes vapor devices, per college policy.

If a clinical site policy defines stricter guidelines, the clinical site policy will prevail.

TNF3/23,

Classroom Dress Code

Students will be expected to maintain dress standards required by the H.E. Stuckenhoff Department of Nursing. These include the highest standards of cleanliness, neatness, professional taste, and safety. Students who do not adhere to these standards may be requested to leave the classroom, clinical or laboratory area and absence time will accrue. If you have any questions about the dress code, please see an instructor for clarification.

Professional appearance and personal hygiene contribute to a safe, respectful, and therapeutic healthcare environment. Students are expected to maintain good personal hygiene and present a clean, neat, and professional appearance in all clinical settings.

To promote patient comfort and accommodate individuals with sensitivities, strong fragrances and noticeable odors should be avoided. This includes, but is not limited to, perfumes, colognes, scented body products, tobacco or nicotine products, vaping products, foods, and other substances that may result in lingering odors on clothing, skin, or breath.

Classroom:

- A. Students are required to follow dress code when in the classroom setting, outside of clinical lab time.
 - See-through fabric is not allowed.
 - Bare midriffs or large holey fabric on shirts is not allowed.
 - Fit should be appropriate to the size of the individual.
 - Undergarments, chest hair, cleavage and/or gluteal clefts should not be visible.
 - Shorts and skirts should be no shorter than mid-thigh.
 - If jeans are worn with holes in them, the holes must not be higher than mid-thigh.

Business Casual Dress Guidelines

Throughout the nursing program, students may attend events where business casual dress is required. The following guidelines are offered:

Appropriate attire:

- Slacks similar to Dockers and other makers of cotton or synthetic material pants, wool pants, flannel pants, dressy capris, and
- nice-looking dress synthetic pants are acceptable.
- Casual dresses and skirts, and skirts that are split at or below the knee are acceptable. Dress and skirt length should be at a length at which you can sit comfortably in public.

- Casual shirts, dress shirts, sweaters, tops, golf-type shirts, and turtlenecks are acceptable. Most suit jackets or sport jackets are acceptable.
- Conservative athletic or walking shoes, loafers, clogs, boots, flats, dress heels, and leather deck-type shoes are acceptable. Wearing no stockings in warm weather is acceptable.

Inappropriate attire:

- Jeans, sweatpants, exercise pants, Bermuda shorts, short shorts, shorts, bib overalls, leggings, and any spandex or other form-fitting pants such as people wear for biking.
- Short, tight skirts that ride halfway up the thigh, mini-skirts, skorts, sun dresses, beach dresses, and spaghetti strap dresses.
- Tank tops, midriff tops, shirts with potentially offensive words, terms, logos, pictures, cartoons, or slogans. Halter tops, tops with bare shoulders, sweatshirts, and t-shirts unless worn under another blouse, shirt, jacket, or dress.
- Flashy athletic shoes, thongs, flip-flops, or slippers are not acceptable footwear.

General information:

- Clothing that reveals too much cleavage, back, chest, feet, stomach, or underwear is not appropriate.
- Clothing should be pressed and never wrinkled. Torn, dirty, or frayed clothing is unacceptable. All seams must be finished.
- Jewelry, makeup, perfume, or cologne should be in good taste with limited visible body piercing. Some people are allergic to chemicals in perfumes or colognes – wear these with restraint.

Medication Administration Recommendations for Students

Medication Error defined: any preventable event that may cause or lead to inappropriate medication use or client harm while the medication is in the control of the health-care professional, client, or consumer. (National Coordinating Council for Medication Error Reporting and Prevention)

1. Identify Six (6) rights of Medication Administration (per Math for Meds 11th ed):
 - a. Right Drug
 - b. Right Dose
 - c. Right Route
 - d. Right Time
 - e. Right Patient
 - f. Right Documentation
2. Student to demonstrate triple check with each med:
 - a. Read the MAR & select the drug
 - b. Directly compare drug to MAR
 - c. Final check variable by unit and faculty.
3. Identify client prior to administration per facility policy.

4. In an acute care setting, any cardiac, antihypertensive, or pain medications should have appropriate assessments completed immediately prior to administration of medications. Follow parameters. Consult instructor with VS and parameters prior to administration.
5. Student must double-check all new orders before pursuing action.
6. Student must report all abnormal findings to instructor and assigned nurse.
7. Student will inform instructor of any errors found and instructor will notify appropriate unit staff and fill out occurrence report at facility of college per policy.

Reviewed – 8/18 – TNF

Estimated Expenses

Prospective students should refer to the current Casper College catalog for tuition and fee rates. Please note ATI fees are **non-refundable**. In addition to tuition and fees and required laboratory supplies, the following expenses are estimated for the **First semester** of the nursing program:

<u>Item</u>	<u>Cost</u>
Background check	\$ 38.50 per year
Drug Screen:	
Casper College Student Health	\$ 6
Drug Testing Center	\$ 40 - \$55
Books and online support programs (used through program)	\$ 1,100
Computer (compatible with ExamSoft)	\$ 1,000+
Supplies	\$ 50 - \$100
Uniforms and lab coat	\$ \$175+
Lab Kit: NURS 1100	\$ 75
Watch with digital or sweep second hand	\$ 10+
Stethoscope	\$ 50 - \$ 175+
Bandage scissors	\$ 7+
Sharpie ®	\$ 5
Chicken pox titer	\$ Varies per individual lab
Chicken pox vaccine x 2 (available at Public Health Dept.)	\$100+
Hepatitis Tier	\$ Varies per individual lab
Hepatitis immunization series	\$ 90+
MMR Titer	\$ varies per individual lab
MMR Vaccine	\$ 50+
Health Insurance (Mandatory)	Varies per carrier
Other required vaccines (IE: influenza)	Varies per site

Casper College provides at no expense to students, liability (malpractice) insurance while nursing students are engaged in their clinical laboratory activities. As is stated in the catalog, students are responsible for their own transportation and its related expense.

<u>Item</u>	<u>Cost</u>
-------------	-------------

Books and online support programs (used through program)	\$ 1,100
Lab Kit	\$ 200
Application for nursing license fee + background check for PN exam	\$ 200+
NCLEX-PN exam	\$ 200+

Finally, **Third and Fourth semesters** estimated expenses include:

<u>Item</u>	<u>Cost</u>
Books and online support programs (used through program)	\$ 1,100
Health insurance	Varies with carrier
Background check update if needed	\$ 40
Cap and gown fee	\$ 50
Application for nursing license fee + background check	\$ 200+
NCLEX-RN exam	\$ 200
Pinning ceremony-depends on class decisions	\$ Varies per Class decisions

If you are applying for financial assistance, you may be eligible for an increase to your expense budget based on the above estimated expenses. Please contact the Office of Student Financial Assistance for instructions on how to request an expense review.

Revised 8/22 Nursing Program Director

Math Competency Policy

The overall goal of the Math Competency Policy is to ensure that nursing students demonstrate proficiency in medication dosage calculations to promote and support patient safety and safe nursing practice.

Casper College Nursing Program students are required to demonstrate math competency in all four semesters of the program by achieving the minimum required score for each course:

- **NURS 1100:** 80%
- **NURS 1200:** 85%
- **NURS 2300:** 90%
- **NURS 2400:** 90%

Students who do not achieve the required semester benchmark on the Math Competency Test must complete remediation and retest within one week. Remediation and retesting will continue until the required benchmark is achieved.

Students who do not meet the Math benchmark may attend the first scheduled clinical day as a clinical orientation experience; however, they may not administer medications in the clinical

setting (on the orientation day) until they have successfully met the semester math competency/benchmark requirement.

Because medication administration is an essential clinical function, students who have not achieved the required math competency benchmark will not be permitted to attend subsequent clinical experiences until the benchmark has been met and/or math competency achieved. Clinical time missed because of not meeting the math competency requirement will accrue in accordance with the clinical attendance policy.

NURS 2400 Exception: Due to the nature and structure of the NURS 2400 preceptor-based clinical experience, NURS 2400 students who have not achieved the required 90% math competency benchmark may not attend any clinical or preceptor experience, including the first scheduled clinical day, until the benchmark has been successfully achieved. The clinical orientation exception described above applies only to NURS 1100, NURS 1200, and NURS 2300.

Students are responsible for achieving the required math competency benchmark in a timely manner. Delayed achievement of the benchmark may result in clinical absences and an inability to meet course and clinical objectives. Students who are unable to meet required clinical objectives due to missed clinical experiences may be required to withdraw from the course.

TNF 05/26

Expected Outcomes: by the end of the program the student is expected to:

1. Interpret medication orders and standard abbreviations needed for dosage calculations
2. Convert within and between measurement systems (metric and household)
3. Calculate dosages for administration of medications by common routes (solid oral medications, oral liquid volumes, injectable medication volumes)
4. Calculate infusion rates and times for intravenous administration
5. Calculate dosages for administration of medications in complex situations (patient clinical data, safe/recommended range, multiple step medication administration in various clinical settings)

Math quizzes and competency exam are not accommodated, as they are a component of clinical. Per the core performance standards, a student must be able to perform critical thinking in a timely manner to provide safe care.

Sources that are available to assist the student in preparing for success on the math test include: the Dosage Calculation textbook, ATI and the Math Lab.

Revised- 05.2026 PD

Clinical Scoring Definitions

Students are evaluated in the clinical setting using the following scoring categories:

Met and/or Competent – The student consistently demonstrates safe, appropriate, and effective clinical performance and meets the expected clinical objectives. This is the desired level of performance.

Approaching Competency – The student is progressing toward meeting clinical expectations but may require additional guidance, practice, or improvement in specific areas.

Not Met – The student does not demonstrate the expected level of clinical performance or is unable to meet identified clinical objectives at the time of evaluation.

Student Presentation Guidelines

A student earning a ‘Not Met’ and/or ‘Not Competent’ grade/score for clinical performance and/or clinically related assignments or has significant absence time will complete a Student Success Plan. Due to the critical nature of some aspects of nursing care, one or two ‘Not Met’ and/or ‘Not Competent’ scores may necessitate a presentation, and faculty will complete a collaborative review of the student’s progression in the program. The review will be based on the performance of the course outcomes. The student may bring a support person (i.e. family member, friend, or peer) for nonverbal personal support. No recording (audio/visual) is allowed since this is an informal process. As a result of the presentation students will receive one of the following 3 options:

1. No conditions and may continue in the course
2. Receive an ‘Academic Warning’ with specific conditions, the student will:
 - a. be told the length of time for the ‘Academic Warning’ period decided upon
 - 1) A student may be placed on ‘Academic Warning’ no more than twice during the four semesters of the nursing program.
 - 2) ‘Academic Warning’ may continue into the next semester
 - 3) If the ‘Academic Warning’ extends into the next semester, the student will meet with a member of the current and subsequent semester faculty at the beginning of the new semester to review the terms.
 - b. be advised of his/her strengths and concerns along with the specific course outcome/s that the student is not fulfilling
 - c. be given written specific conditions and/or recommendations for improvements in clinical performance
 - d. signs a statement that he/she has seen the conditions of ‘Academic Warning’ report in writing, and that he/she agrees to the plan
 - e. be either taken off ‘Academic Warning’ at the end of the designated period or receive a clinical ‘Not Met’ and/or ‘Not Competent’ if insufficient progress is demonstrated.
 - f. breach of ‘Academic Warning’ is an automatic ‘Not Met’ grade/score and presentation.
3. Receive a clinical ‘Not Met’ and/or ‘Not Competent’ grade/score in the course
 - a. if the faculty determine that the student cannot meet the outcomes a ‘Not Met’ and/or ‘Not Competent’ grade/score clinical rating will be recorded/earned, and the student will not be allowed to continue in the course or the nursing program. If a clinical ‘Not Met’ and/or ‘Not Competent’ grade/score is earned prior to campus withdrawal date, the student will be allowed to withdraw from the course, with the understanding the s/he cannot return to the program. College mechanisms for due process are always available to the student.

Reviewed/Revised 06/26 PD

Appeal Process

1. A decision reached by an instructor or the semester faculty and the sanction(s) imposed may be appealed by the student to an appeal board within 24 hours of the decision (excluding weekends). Such appeals must be in writing which shall contain any relevant supporting documentation and shall be delivered to the Nursing Program Director for review by an appeal board.
2. An appeal may only be filed for one or more of the following purposes:
 - Clinical ‘Not Met’ and/or ‘Not Competent’ in a course resulting in course failure
 - Alleged cheating in the classroom or clinical
3. An appeal board will be instituted of at least five persons. Two nursing faculty (from different semesters) will be chosen by the student, two nursing faculty will be appointed by the Nursing Program Director and one health science school non-nursing faculty will be appointed by the Nursing Program Director. The Nursing Program Director will not be included in the appeal board proceedings.
4. The appeal board shall have latitude to determine the process by which it will review the information. Following deliberations, the board shall determine by majority vote whether to uphold or deny each basis for appeal.
5. The board-selected chair will prepare a written communication which shall include a declaration as to whether or not each basis of the appeal was upheld or denied and a brief description of the board’s rationale for each action.
6. This document shall be submitted to the Nursing Program Director within 5 working days following the appeal, whom upon review of the case, may leave the sanction(s) unchanged or may reduce the sanction(s) imposed with a rationale for the decisions made.

Revised – S – 10/08—EC-Update 8/17

Academic Progression Policy

To progress in the nursing program, the student must:

1. Attain a "C" or better in all courses required for the Associate Degree in Nursing (ADN).
2. Achieve a ‘Competent’ clinical rating in all nursing courses.
3. Maintain core performance standards for nursing
4. Maintain the college and departmental standards of student conduct.

Revised 03/16 CC/TNF

Withdrawal Policy

Withdrawal from any NURS course impacts progression to the next semester, constituting withdrawal from the nursing program. Policies and procedures for re-entry apply.

Re-entry Policy

Students can re-enter the nursing program one time only. All NURS courses must be successfully completed in sequence within six semesters of initial entry to the program.

Each application for re-entry will be considered on an individual basis and is subject to space available in the appropriate course. In the case of limited space available, candidates for re-entry will be admitted based on their nursing degree GPA.

Applicants who wish to continue from the point of departure from the ADN program must apply and re-enter within one calendar year or must apply to re-enter the program from the beginning. The “Request for Reentry” application must be completed and given to the nursing program director at the time of withdrawal or failure. It is strongly recommended that such applicants seek employment or experiences that will require the use of basic nursing skills during this interim. Applicants will be required to fulfill all recommendations made at the time of withdrawal or failure prior to applying for re-entry.

In all situations of re-entry into the nursing program, please be aware of the following:

1. When the student re-takes a class, the most current grade, higher or lower, will replace the previous grade earned.
2. Federal financial aid may be jeopardized.
3. If the student is using VA benefits, they will probably not be able to receive benefits for previously earned credits.
4. Proof of meeting the departmental and community agency requirements must be provided prior to attending clinical.

Second Admission to the Program

A student may choose to apply to re-start the nursing program from the beginning if the student:

1. Did not apply for re-entry into the unsuccessful semester after failing or withdrawing from a required course.
2. Has been unsuccessful in the re-entry process.
3. If have entered the program twice, the student may apply again to the program after 5 years and all current criteria has been met.
3. Students on the alternate list who are reentering the program may be admitted up to 2 weeks of the start of the semester if space becomes available.

There will be no re-entry or admission/re-admission to the ADN program when a student has any of the following:

- Failure to meet course outcomes based on clinical performance.
- Two failures and/or withdrawals in a nursing course.
- Demonstrated violation of professional ethics by being under the influence of alcohol and/or in violation of the Controlled Substance Act per Casper College and program policies.
- Demonstrated violation of the Casper College or Nursing Student Code of Conduct
- Inability to meet Health Science Core Performance Standards or clinical accessibility requirement.

Graduation Guidelines

1. The nursing student should request a degree check (Academic Evaluation) at the start of his/her third semester.
 - Go the Casper College website to request a degree check for an Associate Degree in Nursing.
 - It can take 3-4 weeks to complete a degree check.
2. The student must submit an “Application for Graduation” through the Casper College website to graduate in NURS 2400 course prior to the deadline and for the PN Certificate in NURS 1200.
3. If the student needs copies of the academic transcript sent to other higher education institutions or the state board of nursing, request on line through the Casper College website, after all grades have been posted.
4. Refer to the current Casper College catalog for detail on graduation requirements.

Revised – F, S – 1/21- PD

BSN Completion

Refer to University of Wyoming for information and advising.

Revised 6/18-PD

Facilities for Instruction

The on-campus facilities include several classrooms, four well-equipped clinical lab areas, and a multimedia center (MMC) in the Saunders Health Science Building. These facilities are available to nursing students for both assigned laboratory time and independent study from 7:30 a.m. to 4:30 p.m. (except during scheduled lab hours for courses) Monday through Friday and additional evening/weekend hours according to student need. The following are the rules and policies for student use of the clinical arts rooms. See also the Health Science policy for the MMC.

1. If the clinical arts area is locked, keys may be obtained from any ADN instructor, the academic assistant, or the director.
2. Only nursing students are permitted in the clinical lab rooms. No children, spouses, etc. allowed.
3. No tobacco use, no eating is permitted in the clinical lab area or MMC. Drinks must be covered.
4. Equipment may not be taken from the lab areas without completing a loan form and permission from faculty, lab coordinator or director dependent on the equipment.
5. After use, all equipment is to be returned to the proper storage area and the labs left organized.
6. Lights are to be turned off, beds left in high position, and doors closed and secured by the last person leaving the room, regardless of the time of day.
7. Equipment found to be malfunctioning is to be labeled and given to the lab coordinator.

8. Evening/weekend hours are supervised by nursing work study in good academic standing. See the lab coordinator or the program director for the job description if interested in the position.

In conjunction with the college site, there are multiple local and state wide facilities to enhance the clinical experience for the nursing student.

Revised 6/18 PD

School of Health Science Simulation Center

An additional educational site is the School of Health Science Simulation Center. This is a state-of-the-art accredited facility available for faculty to provide simulation experiences for nursing students in each semester. Frequent use of gel and washing hands is required.

Simulation is counted as clinical time. All normal preparation for clinicals will be expected for Simulation Days. Simulation rules will apply.

Clinical Laboratory Rules

Lab #1, #2 (HS 221); Lab #3 (HS 217) Lab#4 (HS 122) Lab#5 (HS 208)
Multi-media Center (MMC)

1. Use "Sign In" book when using the lab
2. Place unoccupied beds in high position with rails down
3. Place occupied beds in low position with side rails up
4. Keep manikins covered when not in use
5. Make beds
6. Return items to bedside table when used
7. Place dirty linen in laundry bags
8. Hang wet linens out to dry before placing in hampers
9. No food in any lab
10. Covered drinks only
11. No children allowed in in any lab
12. Cell phones on silent/vibrate to minimize distractions
13. Turns off lights and shut doors when leaving
14. Goggles required in the campus lab when there is a possibility of exposure to blood or body fluids
15. Keep the lab and space organized and clean
16. Pick up after yourself
17. Report any broken equipment to lab coordinator via email ASAP

Practice of Invasive Skills

Students are strongly discouraged from practicing invasive skills on themselves, fellow students, family members, friends, patients, animals, or any other living being outside of supervised laboratory, simulation, clinical, or practicum experiences approved by the Casper College Nursing Program.

The Casper College Nursing Program, School of Health Science, and Casper College assume no responsibility or liability for any injury, illness, adverse event, complication, infection, exposure, property damage, or other outcome resulting from students practicing nursing skills outside of authorized educational activities.

Students are advised that invasive procedures, including but not limited to injections, venipuncture, blood glucose testing, catheterization, medication administration, wound care, suctioning, and other procedures that penetrate the skin, mucous membranes, or body cavities, carry inherent risks. Students should not perform these skills on themselves or others unless specifically authorized and supervised as part of an approved educational activity.

Failure to adhere to this expectation may result in disciplinary action and may be considered a violation of program safety standards.

**CASPER COLLEGE
HEALTH SCIENCE DEPARTMENT**

**Multimedia Center
Procedure**

PURPOSE:

The purpose of the Multimedia Center (MMC) is to provide students with a environment that assists in proving technical instruction in Health Sciences.

RESPONSIBILITY

The School of Health Science is responsible for implementation of the following procedure. Refer questions concerning this procedure to the Nursing Department Resource Committee.

SECURITY:

The door to the MMC (HS 211) is now unlocked for student use unless otherwise posted.

The storage area (HS 211A) will remain locked at all times. Doors are not to be “propped” open for any reason!

HOURS:

The MMC will be accessible to students from 7:30 a.m. to 4:30 p.m. Monday through Friday. If a student lab assistant is employed, the MMC will be open during those hours that the lab assistant is working.

Reviewed – S,4/09-RC

MMC--The Rules

To better serve you the MMC will be unlocked from 7:30am-4:30pm, M-F unless otherwise posted. **YOU ARE REQUIRED TO FOLLOW THESE RULES:**

- ☐ No viewing of pornographic sites.
- ☐ No installation of programs or downloading of non-course related files.
- ☐ No using the scanner as a copier.
- ☐ Student will provide their own paper for printing copies.
- ☐ The lab may not be accessible to students if reserved by another Health Science Department.
- ☐ No printing of non-course related materials (i.e. jokes, personal email, etc.)
- ☐ No food allowed inside the MMC.
- ☐ Drinks are permitted with screw on/non spill lid.
- ☐ DO NOT JUST log off. **SHUT DOWN** computers before you leave the MMC.

Revised 6/18 PD

Student Services/Activities

Academic Advising

Each nursing student is assigned a faculty advisor who will be interested in the student's progress and development. Individual and group conferences may be scheduled between students and advisors to discuss matters of scholarship, credit hours, and requirements for completion of courses. Students register with their advisor each semester. Students may check with Admissions Office or nursing department personnel to determine their current advisor. Nursing Faculty may be contacted via email, phone or during posted office hours.

Student Wellness Center

Counseling Services

Services include individual, couple, family, and group counseling, along with consultations and crisis intervention. These services are free and confidential (with the exception of child abuse or risk of life.) Appointments can be made in person with the Wellness Center receptionist in Student Union/University of Wyoming at Casper building, room 202, or by calling 268-2267. Office hours are 8:00 a.m. to 5:00 p.m., Monday through Friday. Wednesday evening appointments are also possible, based on counselor availability.

Student Health Services

The Student Health Service office is maintained in Student Union/University of Wyoming at Casper building, in the Wellness Center, room 202. Services, most of which are free, include the following: physical exams, administration of immunizations and CLIA - waived lab tests, strep throat testing, blood pressure monitoring, urinalysis, emergency first aid care, office visits, coordination of medical care with community resources, personal health education programs and consultations (individual and group), and on a weekly basis, a women's specialty clinic and a three-hour general physician clinic. The women's specialty clinic (by appointment Wednesday afternoons) and physician ordered blood testing are done on a sliding/reduced fee basis. Although the service is typically open from 8 a.m. to 4 p.m., Monday through Friday, the general physician's drop-in clinic begins at 5:30 p.m. on Wednesday evenings during the fall and spring semesters. For more information, call 268-2263.

Accommodative Services

Any student who has need for accommodations in any courses must go through Accommodative Services, Disability Services Counselor, 268-2557, GW344. An accommodations letter must be presented to each course instructor at the beginning of each semester. Qualified students will receive accommodations for classroom tests.

Other Student Services

Refer to the current college catalog and college student handbook for detailed explanation of other services.

Student Organization

Nursing students are encouraged to participate in the total activities of the college, which includes the Casper College Student Nurses' Association (CCSNA), as preparation for the professional role. Students have attended national conferences in the past. Some of the financial support of these activities comes from the nursing department and the college. Criterion for selection of students to attend the conference(s) is included in this handbook.

See the current catalog for organizations available for the general student body.

Reviewed-S, G-10/08-EC

CCSNA Guidelines for Attending Conferences

To qualify for financial support toward attending the annual NSNA conference, students must meet the following requirements at the time that funds are dispersed:

1. Submit the CCSNA conference attendance application form to the faculty sponsors
2. Submit documentation of participation in 10 hours of community service activities
3. Submit documentation of participation in SNA group fundraising activities totaling 10 hours
4. Have a current course grade of C or better in all required nursing courses

CCSNA faculty sponsors will verify that all of the conference candidates have met the above conditions. CCSNA faculty sponsors will submit the required CC forms for student attendance.

Maximum funding available for students will be based on the amount of funds available for conference attendance (including designated funds available from SNA donations and fundraising activities, student senate, and departmental funds) and the number of students eligible to attend the conference. Students will be responsible for their NSNA membership fee as well as the cost of the NCLEX review (if they choose to attend that offering), and should anticipate additional out-of-pocket expenses.

Funding requests will be made to the Student Senate per their guidelines, as well as to the nursing department Resource Committee for assistance. Requests for funding by the Resource Committee must be accompanied by evidence of application for Student Senate funds and the available SNA fundraising monies designated for conference attendance.

The SNA will plan a fundraising activity at the national conference to return some funds toward the following year's conference attendance. All students attending the conference will assist in the fundraising activity at the conference. If an individual receives funding and subsequently is unable to attend the conference, repayment of the funds is required.

Students will submit an assignment addressing the NSNA conference objectives. A report will be made to the Student Senate following the conference and at the spring and fall SNA meetings to recap the NSNA conference events.

If a student selects to attend the National Student Nurses Association Conference, no absence time will accrue as conference attendance will be considered in lieu of missed clinical time.

Revised: 2/07 – TNF

NSNA Conference Objectives

Name _____

- Demonstrate responsibility for continued personal and professional growth by attending offerings for continuing education.
 - List offerings attended and how they will affect your personal and professional growth.

- Describe the benefits of membership and participation in a professional organization.
 - What are the benefits of membership?

 - List the times you served in the SNA booth at the conference.

- Exploration of nursing roles and various levels of entry into the profession of nursing.
 - By attending offerings and visiting with other nursing students, describe nursing roles that you found interesting.

 - What different levels of entry into nursing were represented at the conference, and how does that impact the various nursing roles?

- Discovery of programs for higher education and opportunities for employment.
 - List other programs for higher education with whom you visited:

 - List interesting opportunities for employment that you explored:

Lockers for Rent

Lockers located in the entry on College Drive are available for students to rent. Nursing students who are members of the student nurse association (SNA) are given a discount on locker rental. See the SNA bulletin board for specifics.

CCSNA Student Locker Guidelines

All lockers must be rented out from the CCSNA through the designated sponsor.

1. A \$5.00 key deposit will be collected at the time of the rental.
2. There is a maximum of 2 persons to each locker.
3. The individual(s) that have contracted out the locker are authorized to use the locker.
4. You may **not** store drugs, alcohol or other hazardous items in the lockers.
5. In order to receive refund of the \$5.00 key deposit, your locker(s) must be cleaned out, inspected, with the keys returned to the sponsor prior to finals week of last paid semester. HS students will not be permitted to take their Health Science final(s) unless the key(s) have been returned.
6. No refunds will be given after 3 weeks of initiating the contract.
7. There will be no pro-rating of locker fees.

Nursing Scholarships

The following scholarships require an application form from the Student Financial Assistance Office (SFA). Please see the Casper College Web site at www.caspercollege.edu/finaid or check with the SFA office for more information on these scholarships.

Revised 5/11 – PD

CASPER COLLEGE
H. E. STUCKENHOFF DEPARTMENT OF NURSING

* Students need to know that nursing is a high-risk occupation, particularly in the areas of infectious diseases (including HIV) and substance abuse.

Policy for Dealing with Blood Borne Pathogens in Clinical Agencies

- A. Nursing faculty and students of Casper College will follow the Infection Control Policies of the clinical agency in which they are currently engaging in the educational process.
- B. Nursing faculty and students will routinely use appropriate Standard Precautions with all clients, equipment and potentially infectious materials to prevent skin and mucous membrane exposure to blood and body fluids including:
 - 1. the routine use of suitable eye protection and the use of other personal protective equipment/apparel as deemed appropriate by faculty and/or agency staff.
 - 2. disposal of all sharps in an approved sharps container and of all disposable contaminated materials in red isolation garbage bags per agency policy.
 - 3. refraining from direct client care and the handling of client-care equipment until exudative lesions or weeping dermatitis is resolved.
 - 4. the immediate reporting of a blood or body fluid spill to the instructor and/or staff in order that agency procedures may be implemented.
- C. Nursing faculty and students will exercise the following exposure procedure when necessary:
 - 1. In the event of a non-high risk needle stick injury or non-critical contact with blood or body fluids, the faculty member or student will report to the Casper College Health Service as soon as possible.
 - 2. If the needle stick or contact with blood or body fluids is deemed critical by the instructor and/or staff, faculty members or students will immediately report to their health care providers or the hospital emergency room to institute appropriate measures. Such treatment will be rendered at the expense of the individual student.
 - 3. Any needle stick injury or other contact with blood or body fluids will be reported to agency personnel immediately.
- D. The nursing department will keep records of immunizations and testing required by clinical agencies to meet the dictates of regulatory agencies and supply such records to clinical agencies as requested and necessary.
